Height limit >1.4m | No. of Users 3 | Free Height of Fall ≤ 0.6m | Assemble Time 2-3H | No. of Activities 2 | Impact Area 19.5m²

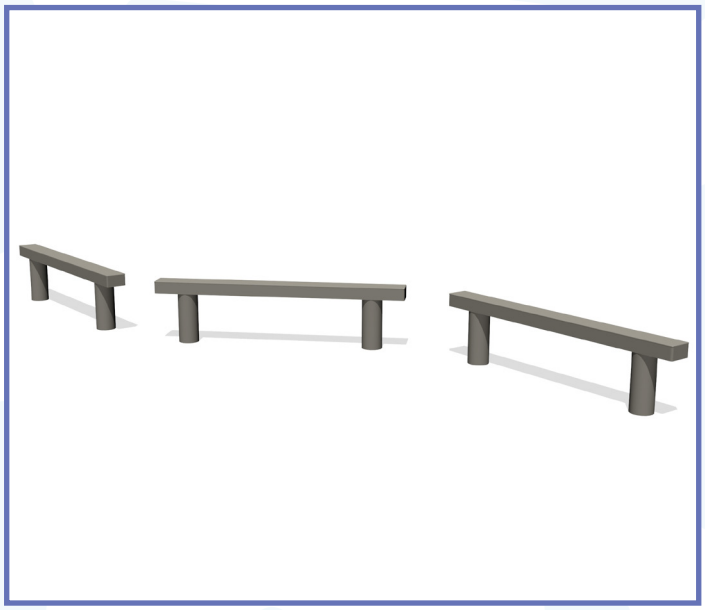
Balance Beams

CW-65

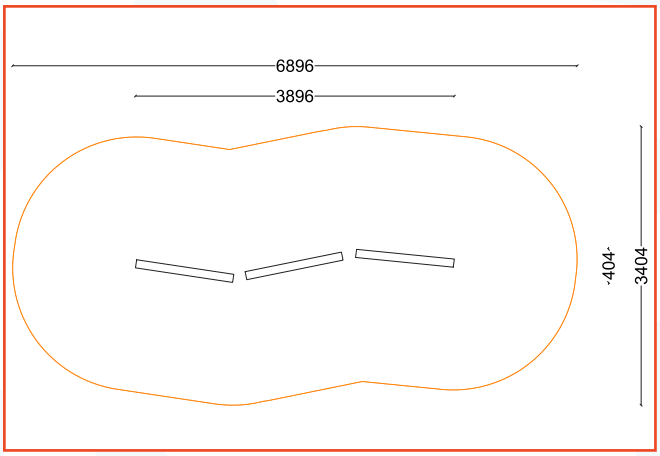
The Balance Beam Set of 3 encourages fun, functional movement while developing balance, coordination, agility and lower-body strength.

Perfect for walking, hopping, jumping and stepping exercises, it also doubles as a versatile station for push-ups and dips to strengthen the upper body.

Suitable for users of all abilities, this durable outdoor fitness unit is manufactured in accordance with EN16630, making it ideal for parks, schools and community fitness spaces.



Technical Information



Materials

The main structure is manufactured from welded steel tube, forming the upright posts, moving arms, foot supports and frame. Steel provides the strength, rigidity and load-bearing performance required for outdoor fitness equipment.

The welded construction gives stability, impact resistance and long-term durability for regular public use in exposed external environments.

The steel is prepared before coating through cleaning, degreasing and rust removal. A powder-coated finish is then applied to create a smooth, hard-wearing protective layer.

This coating helps resist weathering, corrosion, surface scratches and general wear while giving the unit its green and grey appearance for outdoor use.

Surfacing	Surface Measurements
Grass Matting	25m²
Grass Matting (Wear Area)	10m²
Wetpour	19.5m²

No safety surface required as critical fall height is less than 1000mm.

However, we suggest allowing an appropriate free space around the item in compliance with BS EN16630.
