Turning your idea into reality

We offer a free site visits and design service. We want to turn your idea into reality, from technical CAD plans through to full 3D visuals of your space.

We can help with funding

We understand that securing funding can be daunting when starting a new project. We have teamed up with 4Grants Limited to help you every step of the way!

Whether you are looking for funding for a sports project such as an outdoor gym or MUGA or are looking at a playground project, we can help where to source money and help you get in touch with an excellent funding provider. 4Grants Limited offer a no win, no fee process.

Please contact us on 01296 614448 for further information on how to apply for funding for your project.

Guarantees

We offer long guarantees on our equipment and each unit is manufactured to a high standard and quality:

Quali Cite -

- 30 YEARS - Stainless Steel Posts, Aluminium Posts and Profiles
- 20 YEARS - Stainless Steel Components, Rope and Detachable Pieces
- 10 YEARS - Starboard
- 5 YEARS - Springs

Vinci Play -

- 30 YEARS - Steel and stainless-steel components
- 15 years - Steel and stainless steel dynamic equipment
- 10 YEARS - High density polyethylene and high-pressure laminates components*
- 5 years - Corrosion of stainless steel and hot dip galvanized and powder coated components; against bark beetles and rot in case of wooden structural elements,
- 3 years - On powder galvanized and powder coated components, defects of ropes and nets; wooden structural elements,
- 2-year guarantee- All remaining components not specified above.

Outdoor gym- 25 years - Structural steel / 2 years - Bearings Paint - 5 years

Please see our full warranty document for complete guarantee details on the full range.

Council Leasing

The benefits of leasing include:

- * Rentals remain fixed for the full duration of the lease agreement;
- * Rental payments are 100% tax deductible;
- * Simple upgrades often with no noticeable change to your rental costs;
- * Your valuable working capital is protected.

Fees & Important Information

"This is a lease quotation & subject to VAT, credit approval and Anti Money Laundering check Corporation tax rate has been assumed and we advise you speak to your accountants for your specific tax rate. All Lease agreements attract a charge of a £150 + VAT Documentation Fee and a £50 + VAT Annual Service Fee. An asset protection charge may be included if the equipment is not covered under your own policy. We may assign our rights under the agreement to a 3rd party for which we may receive a commission. This does not affect the terms and conditions you sign

Caloo is committed to being 100% Environmentally Responsible Socially Responsible and Eco-Friendly

Construction poles made of **Eco Raw Material**. This material is made using an innovative technology of processing used clothing and foil. This highly durable, eco friendly material is a perfect replacement for for plastics used in towers and ladders, helping to reduce the amount of textile and foil waste in landfills and incinerators. **Reducing waste from leaking into our ecosphere** and harmful carbon emissions from reaching our atmosphere

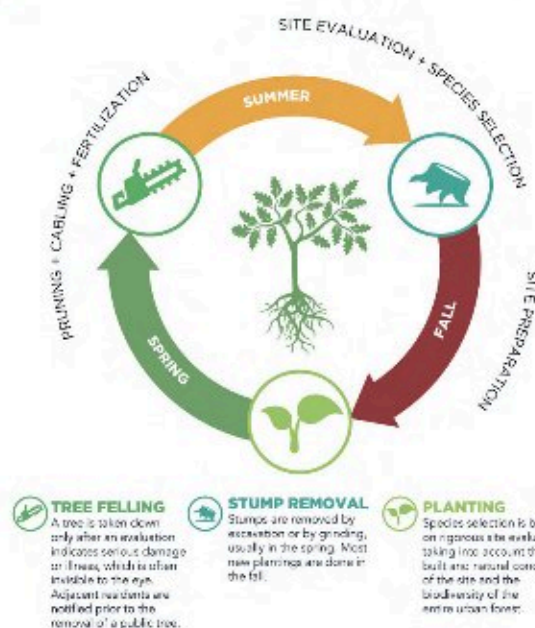

Using nature's own materials, such as **robinia** and **pine wood from sustainable forestry**, where wood is bred for harvesting. Both planting and harvesting is carefully controlled, resulting in sustainable and highly durable playgrounds

Recycled Products

Using **low-carbon** aluminium profiles produced with renewable energy sources, instead of using aluminium profiles made with traditional energy sources, **reduces carbon emissions by 56% CO2e/kg**

Galvanised Steel - Galvanising extends the life of steel products while allowing them to retain their original qualities
Galvanised steel is 100% recyclable material that contributes economically to the preservation of resources

HDPE made from **100% post-consumer ocean recycled waste**, instead of using panels from post industrial waste, **reduces carbon emissions by 76% CO2e/kg**

/kg

Durable high pressured laminate (HPL) made from **100% Recycled Paper**. At the end of the equipments life the material is **100% recovered and recycled again**

HDPE Polyethylene - HDPE panels made from **100% post-consumer ocean recycled waste**, instead of using panels from post-industrial waste, reduces carbon emissions by 76% CO₂e/kg

Replacable, coded panels
Easily identify, order and replace damaged panels and parts.

It takes 2500 recycled tyres to make safe, soft all weather floor surfacing for childrens' play areas
Repurposed truck and bus tyres repurposed into colourful safety surfacing for recreational sites

Nike Grind Safety Surfacing offers a unique product which is environmentally friendly, high performance and durable
A unique mix of both **recycled Nike Rubber Trainers** and EPDM Rubber top course rubber provides a tougher, longer-lasting and more durable surface finish than a standard SBR Wetpour Rubber surface

Ropes - The **outer strands** are made with **100% polyamide wire**. recyclable polyamide fibers are spun from recycled plastic waste

100% High Quality Aluminium poles
Aluminium is **100% recyclable over and over again**. Without loss of it's physical and chemical qualities. Recycling requires only 5% of the endergy initially required to produce

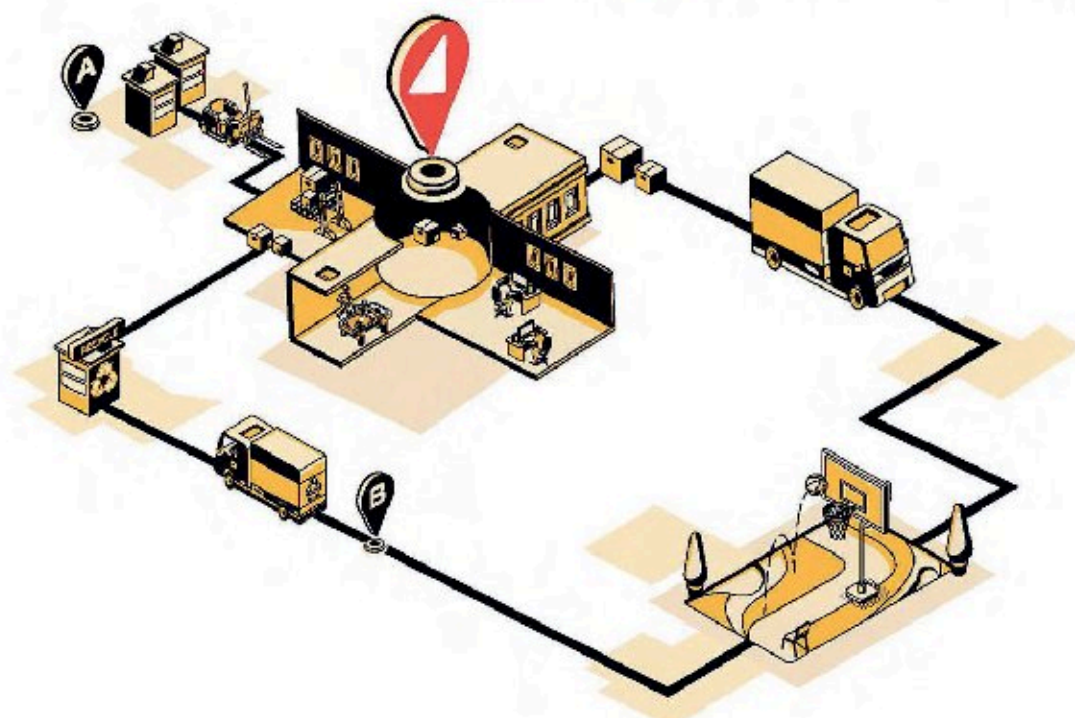

Intelligently Designed Built Too Last

We work closely with our suppliers to ensure our installations fall in line with our commitment to producing 100% environmentally responsible playgrounds and sports facilities.

The recovery of thermal energy generated by the production machines is re-used too heat the site.

- Outstanding creativity in the design of new equipment
- Excellence in quality due to the very strict selection of raw materials
- A dynamic and committed investment policy allowing the acquisition of state-of-the-art production equipment
- Increasing competitiveness and profitability
- Reducing the environmental footprint of our operations

Industry Approved and Certified

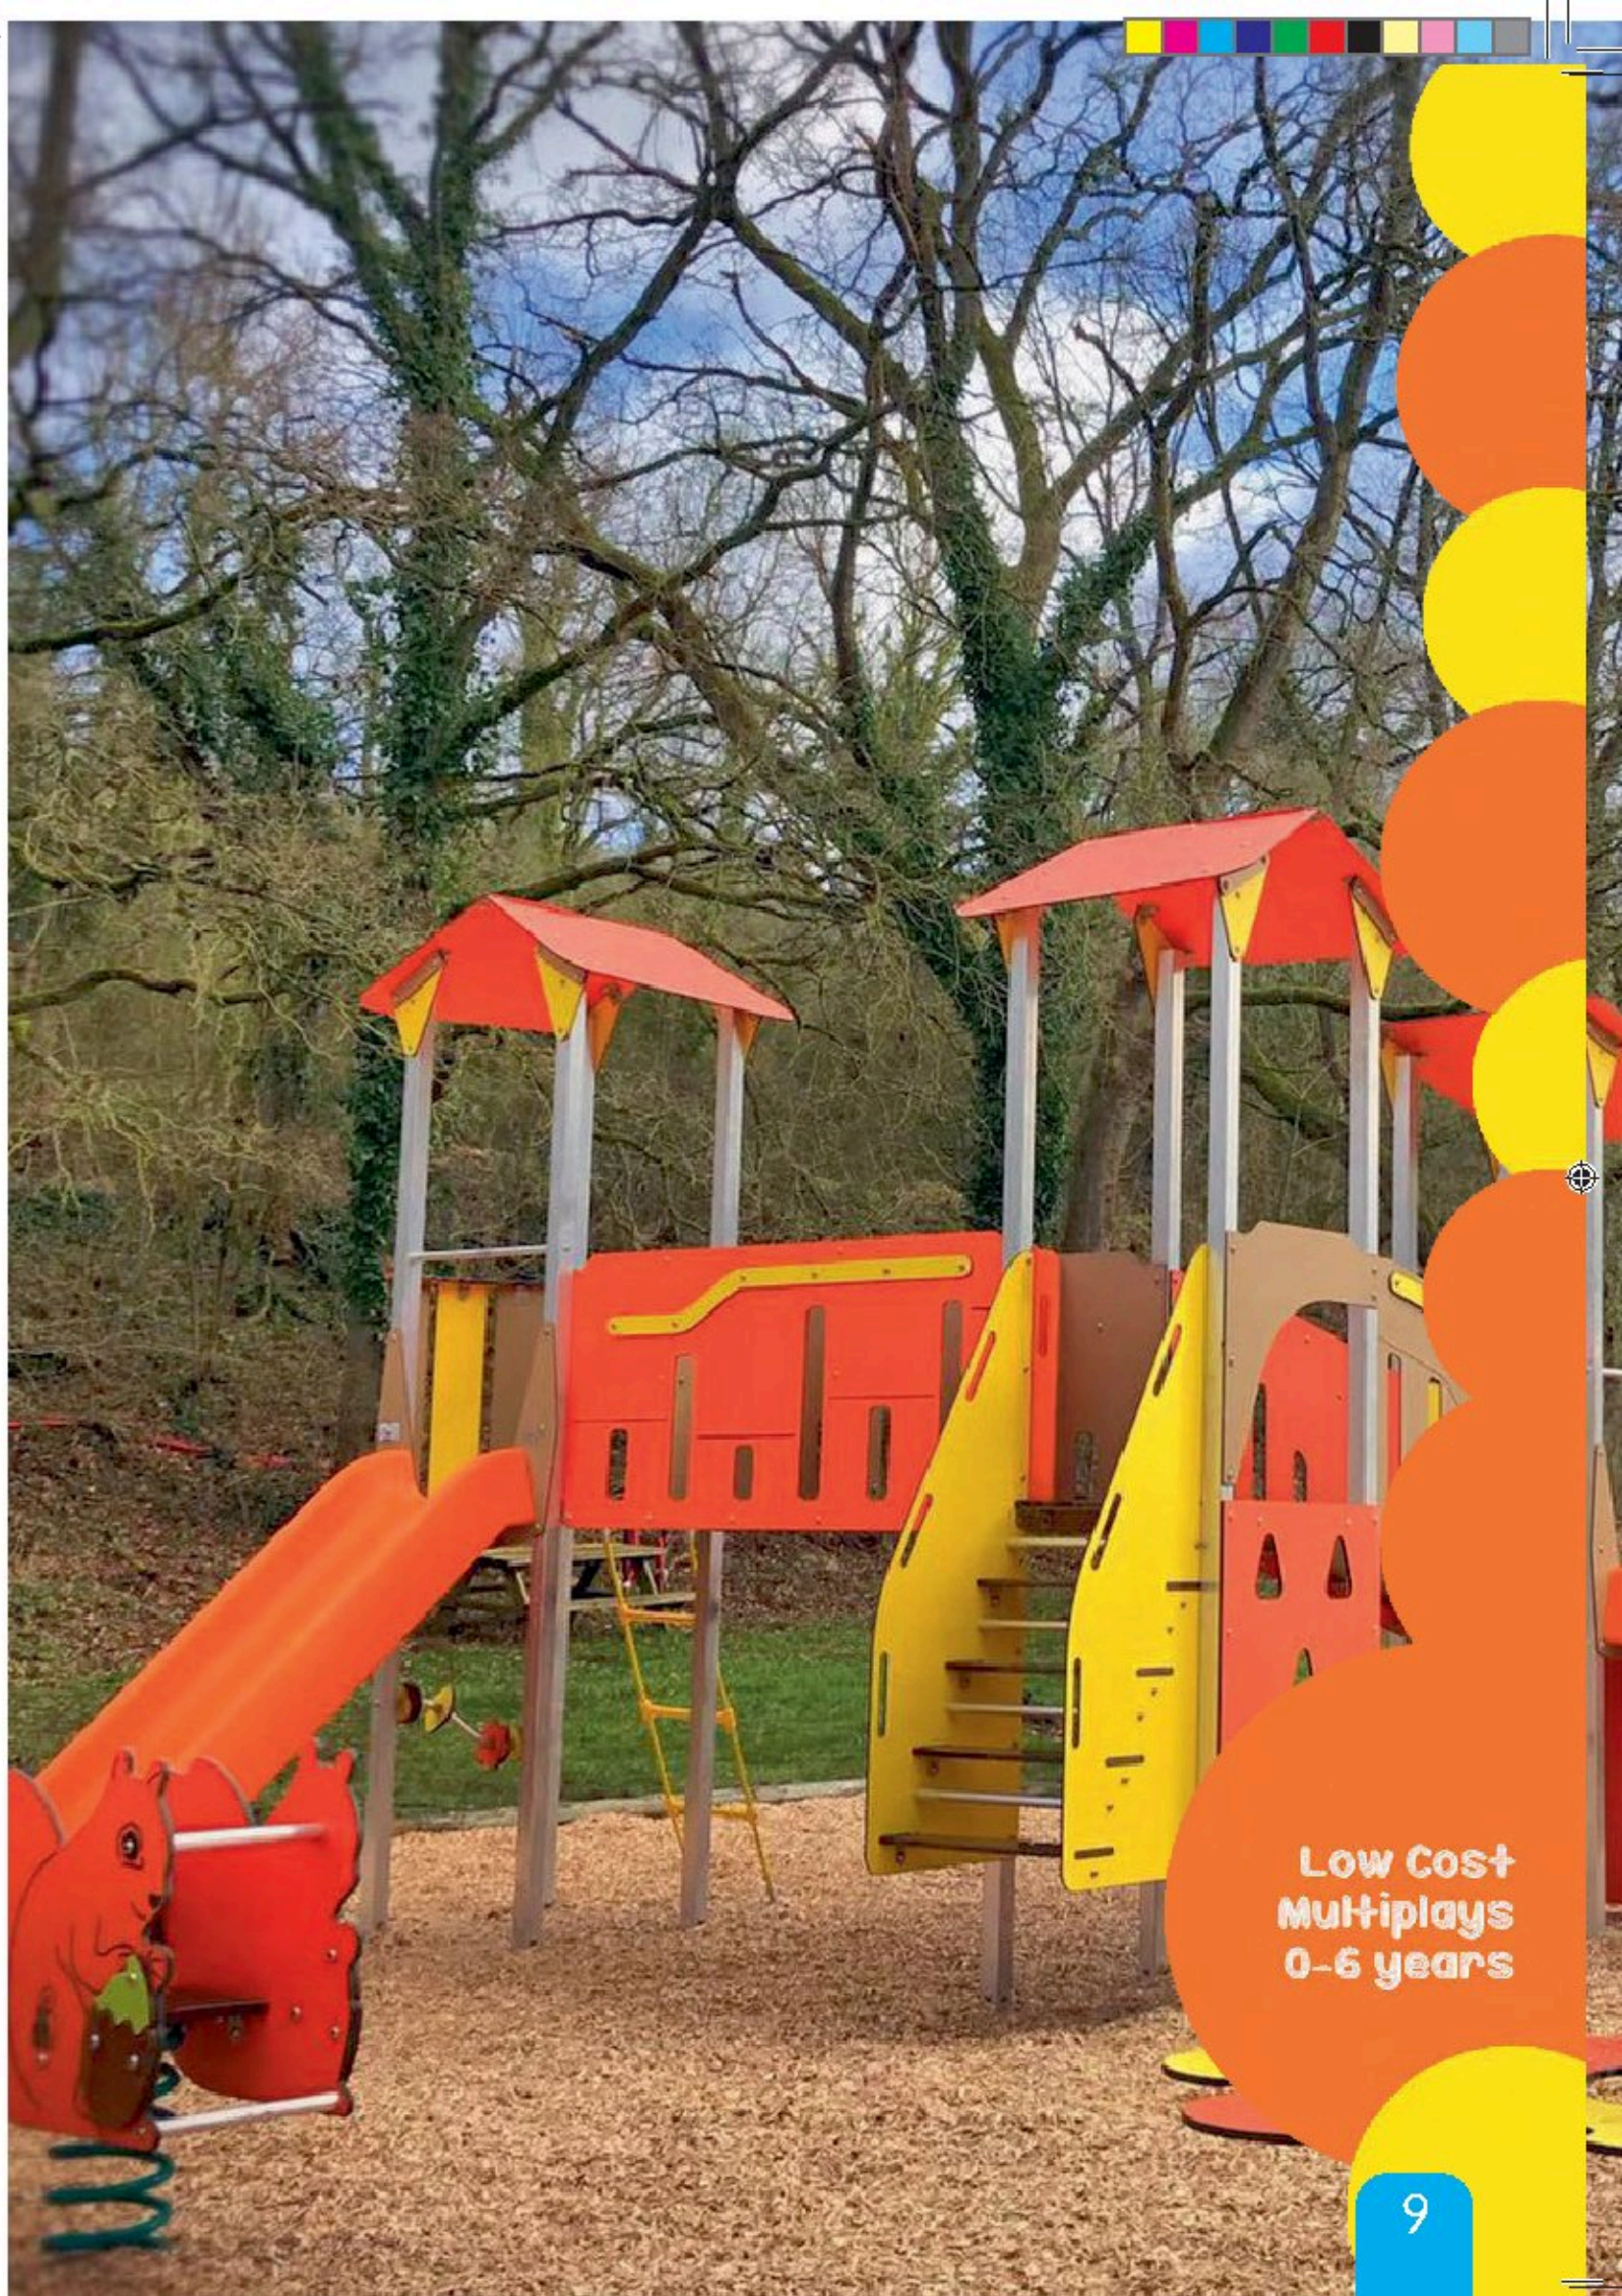

The Association of Play Industries (API) is the lead trade body in the play sector. It represents the interests of manufacturers, installers, designers and distributors of both outdoor and indoor play equipment and safer surfacing. The API promotes best practice and high-quality play provision within the play industry.

As the national trade body representing multiple associations, the FSPA serves the interests of manufacturers, wholesalers and distributors of sports and play equipment, clothing and apparel. With nearly 100 years at the heart of the sports and play sector and as the largest trade body in Europe, we work with our members to promote the industry.

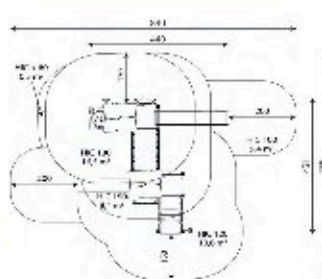

Low Cost
Multiplays
0-6 years

Multi-Play 0-6 Years

The low-cost range is fantastic for those looking for a multiplay unit packed with play value at a cheaper price. This range offers timber and steel material choices in a wide range of colour options. Perfect for those on a tighter budget, without compromising on quality.

Multiplay
Age 8-12

The multiplay range for 8-12 years offers fantastic physically challenging play units. With ropes, climb walls, fireman's poles, banister slides and bridges, these units will be popular with older children and challenge their play abilities.

The diagram shows a rectangular building footprint with several internal walls creating smaller rooms or sections. There are various annotations and dimensions around the perimeter and internally, likely representing structural details or construction specifications.

A 3D rendering of a complex playground structure. It features a large, winding slide that starts from a high platform and ends in a splash pool. There are several climbing nets and platforms throughout the structure, including a small bridge-like section. The structure is primarily brown and yellow, with a white slide.

Robinia

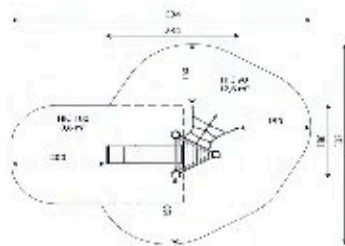

71

Our FSC certified Robinia offers a range of playground equipment made from natural raw materials. Robinia acacia wood is the most durable wood found in Europe and can be anchored directly into the ground.

From tower multiplay units through to springers, roundabouts and swings, there is the full range of Robinia units to create a totally natural play area.

Playhouses

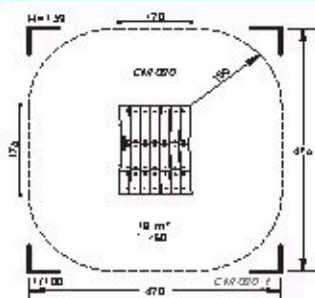

Playhouses

Playhouses are a wonderful addition to any space. They can encourage themed play or provide a relaxing sit down zone for children to take a time out during play. With a variety of shapes, themes and sizes, there is something for all.

Where the paint brush symbol is shown the unit is available in the following colours free of charge.

Recycled Furniture

We offer a wide range of recycled plastic furniture which is low maintenance, environmentally friendly and a great alternative to timber or steel. The furniture does not absorb water and eliminates risks of splinters and rot, the items are also highly resistant to graffiti and difficult to burn which makes them a great solution to high vandalism areas. With a choice of colours and options, choose recycled furniture as an option for your outside space.

SurPacing

Surfacing

Wet pour

Our wet pour surfacing is ideal for creating bright, colourful playground designs to stimulate imaginations.

Wet pour is safe in all weather conditions, the porous surface allows water to drain through which eliminates a slip risk or risk of ice in winter. The smooth continuous surface also reduces the risk of injury from a trip or fall and also makes the surface wheelchair friendly. Available in over 20 colours and further colour blend options too, it really is your choice for a wet pour solution.

Grass matting

Grassmats are designed to provide a safer surface whilst promoting maximum grass growth for a more natural finish. Also ideal for use in areas with high pedestrian traffic flow such as gateways and paths.

Grassmats are fire retardant and UV stable and conform to British and European Standards BS EN 11925 for fire retardant, BS EN 7188 for slip and fall resistance and BS EN 1177 for Critical Fall Height. Grassmats are laid onto existing ground undulations and fixed into position around the perimeter and depending on ground conditions at regular positions within the laid area. Once installed, grass then grows through the mat and binds each mat in place while creating a natural appearance.

SUDS Bond

SUDS surfacing is perfect for those outdoor areas that suffer from drainage problems and a build up of surface water. After rigorous testing, our SUDS-Bond can help by offering fast drainage with a tough, stable surface. Certified to BS EN 14877 for water infiltration rate which exceeded the minimum requirements of 150mm/h.

RED aggregate

YELLOW aggregate

SILVER aggregate

Once installed and fully cured the SUDS surface is considered inert and non-toxic. The surfacing uses large quantities of recycled tyres for an excellent environmental aspect.

Bonded rubber mulch

Bonded Rubber Mulch is a natural looking bonded surface often described as rubber bark. Laid in-situ, it is a durable and environmentally friendly safety surface containing 100% recycled rubber.

The process encapsulates recycled tyre rubber in a tough PU polymer coloured with light stable pigments and once fully cured, the pigments and coating are both non-toxic and inert. Bonded Mulch is available in various basic colours, which can also be blended in any combination to create numerous colour alternatives.

Artificial grass

Synthetic grass is an ideal solution for safe, soft grass that requires low maintenance. Ideal for sports and play and playgrounds. Extremely durable, non-abrasive and highly UV resistant.

Our synthetic turf is an efficient alternative to real grass, with no additional maintenance costs and excellent resilience to wear and damage. With practically invisible seaming producing one continuous and smooth-looking surface, it is well suited for larger areas and can be installed over a cushioned pad or direct onto properly prepared sand or pulverised granite.

Resin bound gravel

Resin Bound Gravel is a beautifully decorative outdoor surface, ideal for virtually any size area or installation due to its incredible durability. It is porous, supporting fast drainage and minimising injury through surface water, and anti-slip.

Its resilience to wear and damage make it an ideal alternative to tarmac or concrete. This is ideal for pathways, tree surrounds and public attractions. The smooth surface properties make this surface type suitable for wheelchair and pram use and is permeable to allow rain water to disperse easily.

Daily Mile Tracks

Daily Mile Running Tracks

We are able to offer a fantastic range of options for your Daily Mile track. We have installed at schools across the UK with a range of surfacing options including Wet pour, SUDS Bond, Tarmac with Acrylic Coating. We can find a solution to suit your needs, from a large track to go around a playing field, to a smaller running track in the playground. Our surfacing choices also make the track accessible for all students to use, with added grip and wheelchair friendly surfacing properties.

Other surfacing options available

Wet pour Track

Wet pour is a popular choice for Sport and Play and makes a great choice for a running track. Being impact absorbent, wheelchair friendly and offering a smooth even finish in a range of colours, this can make your track stand out. This also works if you are looking for lots of line markings to be applied.

SUDS Bond Track

The perfect option for those with drainage issues. SUDS Bond allows fast drainage rates which removes the risk of ice building on the track in winter months. Suds-bond is composed of rubber granules, coloured aggregate and a polyurethane binder to create a surface that has excellent grip and enduring toughness.

Hankham Primary School - Daily Mile Track

Created from SUDS Bond, this wonderful Daily Mile track has been a great success with the children at the school with an improvement to physical fitness and well-being already being seen due to regular use. The activity is social and non-competitive, so all children can feel at ease with joining in with the activity. The use of SUDS has been perfect for the drainage issues and the track is usable in all weather conditions.

Whipperley Infant Academy - Daily Mile Track

The new track was created from SUDS bond to allow an all weather solution for the running track. The daily mile goes around the playing field and creates a good track to run on each day. The track was 1.5m wide allowing pupils to run with friends to add a social element.

Caloo

Outdoor
Gym
Equipment

163

12/17/2023 09:44:49

Outdoor Gyms

Our range of outdoor fitness and gym equipment has been designed to extend a 'free to user' exercise opportunity to all. Featuring a choice of traditional outdoor gym equipment which utilises the users own body weight, our range has now been complimented by the arrival of our hydraulic range.

Our human powered, carbon neutral exercise stations are perfect for both keeping fit and recuperating following injury or illness where as the hydraulic range is for a tougher strength based workout.

Site Signage

We recommend the use of site signage to inform users of site information and local contact details. Use of signage can help deliver appropriate general, safety and site specific messages. Our signs can be customised to display funders / sponsors logos in a layout that suits you.

Signs are an essential part of any free access facility to communicate any height restrictions for which the units are designed and highlight that the equipment is not play equipment.

Caloo Pulse App

We are delighted to offer our 'Caloo Pulse App' which is compatible with all our Outdoor Gym Units. The App is free to download, and users can log their favourite gyms, complete pre-built workouts, track their progress and get nutritional information all from the palm of their hand.

The app is available on both Android and IOS.

Client Reporting

Clients are able to track the usage of their gym installations, viewing data on number of users and units used at each site throughout the year. This is great to see a return on investment and report back to the community or stakeholders.

Caloo Activity Action Plan – KS2/3

The Caloo Activity Action Plan is designed to support the delivery of the new National Curriculum for Physical Education. The plan provides comprehensive information for teachers and support staff on how to use the equipment, all in relation to the new National Curriculum, to really help teachers make full use of the new fitness facilities. The document has been written by a team of qualified fitness professionals and the latest Physical Education National Curriculum guidelines.

Each 64 page pack has four sections:

1. Introduction and general information about the National Curriculum and the contents of the pack.
2. Information cards in relation to each item of Outdoor Gym equipment from the Education bundle and the four other appropriate items included in the KS2/3 risk assessment.
3. A main section providing the lesson plans in an easy to use, progressive format.
4. Appendices including information regarding yearning up/down, recording sheets, additional exercises, overload exercises and sport specific programmes.

Our Action Packs are a valuable addition to your Outdoor Gym and will save your staff a lot of time and effort in preparation of the pack.

The pack also provides information on the PE and sport curriculum, support for the school's PE and sport, and information on the school's PE and sport curriculum. The pack also provides information on the PE and sport curriculum, support for the school's PE and sport, and information on the school's PE and sport curriculum.

Published criteria are as follows with elements relevant to the Action Packs highlighted in red -

- Hire specialist PE teachers.
- Hire qualified sports coaches to work with teachers.
- Provide existing staff with teaching resources to help them teach PE and sport.
- Support and involve the least active children by running or extending school sports clubs, holiday clubs and 'Change4Life' clubs.
- Run (quiet) competitions to increase pupils' participation in the School Games.
- Run sports activities with clubs and clubs.

To order your Action Packs:

Please contact our sales team on 01296 644406 or info@caloo.co.uk or email: info@caloo.co.uk. Standard price for the pack is £100.00. The pack includes a 2 hour on-site training session which covers 2 hour session for up to 20 children and includes the cost of the pack.

Individual Gym Units

All units are available in the following colour options:

Green and Silver

Blue and Silver

Lat Pull

CW-01

This piece of equipment will focus on developing primarily the back and also the biceps.

- Dimensions (mm) - LxWxH: 2330 x 740 x 1950
- Unit Free Fall Height: 670mm
- Max User Weight: 130kg
- Unit Weight: 98kg

Chest Press

CW-02

This unit provides an upper body workout focusing on the chest and arms.

- Dimensions (mm) - LxWxH: 2060x680x1950
- Unit Free Fall Height: 690mm
- Max User Weight: 130kg
- Unit Weight: 92.5kg

Air Walker Duo

CW-03

The Airwalker Duo provides a great cardiovascular and lower body workout. Each unit work independently.

- Dimensions (mm) - LxWxH: 2570x730x1969
- Unit Free Fall Height: 700mm
- Max User Weight: 130kg
- Unit Weight: 170kg

Cross Rider Duo

CW-05

Using the arms and legs together provides a great cardio workout. Each unit work independently.

- Dimensions (mm) - LxWxH: 3280x676x1590
- Unit Free Fall Height: 485mm
- Max User Weight: 130kg
- Unit Weight: 123kg

Leg Press

CW-06

Use the Leg Press to strengthen and build the thigh and hip muscles.

- Dimensions (mm) - LxWxH: 2080x460x1670
- Unit Free Fall Height: 1060mm
- Max User Weight: 130kg
- Unit Weight: 84kg

Exercise Bars

CW-07

Tricep dips and standing press ups is a great way to develop chest muscle.

- Dimensions (mm) - LxWxH: 2110x610x1580
- Unit Free Fall Height: 1490mm
- Max User Weight: 130kg
- Unit Weight: 61kg

Skier

CW-08

Strengthens lower back and abdominal muscles to improve flexibility.

- Dimensions (mm) - LxWxH: 1190x860x1311
- Unit Free Fall Height: 650mm
- Max User Weight: 130kg
- Unit Weight: 49kg

Waist and Back Massager

CW-09

Improve circulation and stimulate back muscles.

- Dimensions (mm) - LxWxH: 900x665x1380
- Unit Free Fall Height: N/A
- Max User Weight: 130kg
- Unit Weight: 30kg

Chin-Up

CW-10

Great for the upper body and developing strength building

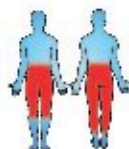

- Dimensions (mm) LxWxH: 1710x1710x2140
- Unit Free Fall Height: 1000mm
- Max User Weight: 130kg
- Unit Weight: 61kg

Air Walker

CW-12

Great cardiovascular and lower body workout. To help improve flexibility and strength.

- Dimensions (mm) - LxWxH: 1085x380x1400
- Unit Free Fall Height: 700mm
- Max User Weight: 130kg
- Unit Weight: 55kg

Tai Chi Wheel

CW-13

Developing flexibility and co-ordination in the arms, wrists and shoulders.

- Dimensions (mm) LxWxH: 1100x1010x1380
- Unit Free Fall Height: 1100mm
- Max User Weight: 130kg
- Unit Weight: 60kg

Individual Gym Units

Rider

CW-14

Providing a full body workout. Aimed at all ages for maintaining a healthy body.

- Dimensions (mm) LxWxH: 1460x520x1050
- Unit Free Fall Height: 730mm
- Max User Weight: 130kg
- Unit Weight: 45kg

Body Twist

CW-15

Improve flexibility in the lower back and hips. With three user stations.

- Dimensions (mm) LxWxH: 1520x1520x1310
- Unit Free Fall Height: 132mm
- Max User Weight: 130kg
- Unit Weight: 49kg

Combi Benches

CW-16

Gain wider abdominal movement whilst performing sit-ups.

- Dimensions (mm) LxWxH: 1700x1350x685
- Unit Free Fall Height: 630mm
- Max User Weight: 130kg
- Unit Weight: 63kg

Body Rotator

CW-17

Improve flexibility and blood circulation in the upper body.

- Dimensions (mm) LxWxH: 930x1070x1880
- Unit Free Fall Height: AAA
- Max User Weight: 130kg
- Unit Weight: 56kg

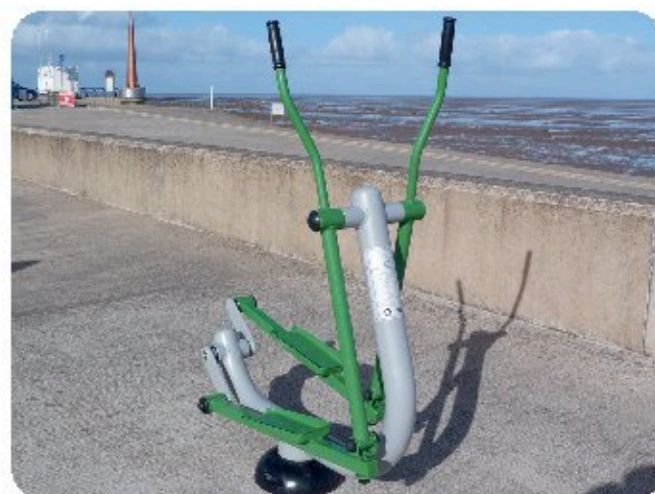

Cross Rider

CW-23

A full body cardio workout using the arms and legs simultaneously.

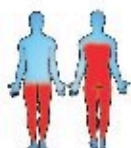

- Dimensions (mm) LxWxH: 1140x700x1650
- Unit Free Fall Height: 485mm
- Max User Weight: 130kg
- Unit Weight: 60kg

Sitting Back Massager

CW-26

Improve circulation and stimulate back muscles.

- Dimensions (mm) LxWxH: 1350x800x1470
- Unit Free Fall Height: 690mm
- Max User Weight: 130kg
- Unit Weight: 86kg

Individual Gym Units

Cycle

CW-28

Great for trimming up, building leg muscles and working on stamina.

- Dimensions (mm) LxWxH: 980x660x1360
- Unit Free Fall Height: 820mm
- Max User Weight: 130kg
- Unit Weight: 31kg

Rower

CW-32

Using the arms and legs simultaneously to complete a rowing action.

- Dimensions (mm) LxWxH: 1310x1010x1175
- Unit Free Fall Height: 651mm
- Max User Weight: 130kg
- Unit Weight: 43kg

Arm Bike

CW-35

This unit provides a full body cardio workout and helps to build stamina.

- Dimensions (mm) LxWxH: 1010x755x1320
- Unit Free Fall Height: 848mm
- Max User Weight: 130kg
- Unit Weight: 43kg

Stepper

CW-36

This unit provides great cardio workout targeting the calves, quads and glutes.

- Dimensions (mm) LxWxH: 1120x890x1370
- Unit Free Fall Height: 450mm
- Max User Weight: 130kg
- Unit Weight: 75kg

Parallel Bars

CW-38

For tricep dips while working the chest area.

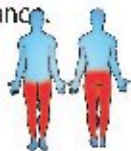

- Dimensions (mm) LxWxH: 2400x768x1415
- Unit Free Fall Height: 1414mm
- Max User Weight: 130kg
- Unit Weight: 78kg

Leg Lift & Stretch

CW-39

Use this unit to stretch your leg muscles and improve flexibility and balance.

- Dimensions (mm) LxWxH: 1000x1000x1200
- Unit Free Fall Height: 1109mm
- Max User Weight: 130kg
- Unit Weight: 40kg

Individual Gym Units

Horizontal Bars/ Chin Ups

CW-56

A simple item, but provides great exercise options for upper body workouts.

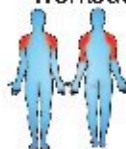

- Dimensions (mm) LxWxH: 4339x114x2477
- Unit Free Fall Height: 2477mm
- Max User Weight: 130kg
- Unit Weight: 100.5kg

Lat Pull and Chest Press Combi

CW-57

Developing shoulders, triceps and a complete upper body workout.

- Dimensions (mm) LxWxH: 2200x742x1950
- Unit Free Fall Height: 690mm
- Max User Weight: 130kg
- Unit Weight: 95kg

Cardio Boxes

CW-67

Working out the calves, quads and glute muscles.

- Dimensions L x W x H: 1200 x 410 x 200300400mm
- Unit Free Fall Height: 425mm
- Max User Weight: 130kg
- Unit Weight: 29.5kg

Balance Beams - Set of 3

CW-65

Improve balance and coordination and platforms for stepping exercises.

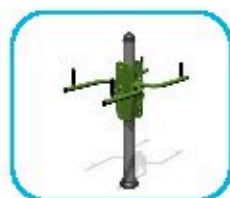

- Dimensions (mm) LxWxH: 3600x100x300
- Unit Free Fall Height: 300mm
- Max User Weight: 130kg
- Unit Weight: 60kg

Leg Rise

CW-63

Great for building muscles for legs and stomach.

- Dimensions (mm) LxWxH: 1500x730x1560
- Unit Free Fall Height: AAA
- Max User Weight: 130kg
- Unit Weight: 60kg

Upper Body Workout

CW-64

Combi unit to work out the arm muscles - primarily triceps and biceps.

- Dimensions (mm) LxWxH: 2183x942x1135
- Unit Free Fall Height: 690mm
- Max User Weight: 130kg
- Unit Weight: 65kg

Accessible Gym Units

Seatless Lat Pull & Chest Press Combi

CW-62

Focusing on various upper body workouts from the chest and arms to shoulders and triceps.

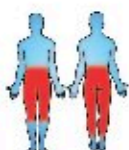

- Dimensions (mm) LxWxH: 2200x742x1950
- Unit Free Fall Height: ÅÅÅ
- Max Åser Weight: 130kg
- Unit Weight: 72kg

Wheelchair Accessible Pedals

CW-69

Great for working out the lower leg muscles while in a wheelchair.

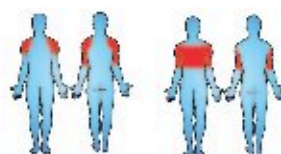

- Dimensions (mm) LxWxH: 3400 x 3200mm
- Unit Free Fall Height: ÅÅÅ

CW-72

Focusing on various upper body workouts from the chest and arms to shoulders and triceps.

- Dimensions (mm) LxWxH: 1360 x 860 x 2185mm
- Unit Free Fall Height: ÅÅÅ
- Max Åser Weight: 130kg
- Unit Weight: 39.8kg

Stanway Parish Council - Outdoor Gym Case Study

- Supplying and installing a new outdoor gym for the community.

The Site:
Stanway Parish Council - Silver Witches Green

The Brief:
The client wanted to provide their local community with an outdoor gym so that residents could exercise outside. They also wanted a water permeable surface so that the area could be used in all weathers.

The Budget: £20,833.33 + VAT

Equipment installed:

- SUDs Bond Surfacing
- Exercise Bars
- Chin Up
- Cross Rider
- Combi Benches
- Rider
- Lat Pull
- Leg Press

- Rowler
- Cycle
- Chest Press
- Slider
- Air-walker

The Challenge:
As the area is fairly large and open it needed to be in good view to draw people in and encourage its use. The key for a successful gym is to make it visible and to offer some level of privacy so that users are comfortable. The chosen position used the factors above whilst allowing parents and carers of young children to able to enjoy and use the units whilst having vision of the nearby fenced play area being used by their children.

Inspection & Maintenance

To ensure your new facility operates safely at all times, we have a team of fully qualified **RPII** Operational Inspectors at hand to carry out any necessary inspection or maintenance. Our play, youth and sports facilities require the minimum of maintenance to keep them in the best possible working order but regular inspection and maintenance are essential to avoid a range of potential issues. Below are our recommendations for inspecting and maintaining your facility:

- Weekly – Visual (check that there is nothing wrong with your units)
- Monthly – Physical (check that your units are functioning correctly)
- Annually – Operational inspection/service by a qualified Caloo inspector to extend the life of your equipment
- Annually – Independent inspection by a qualified **RPII** inspector

Our Caloo Facility Inspection Team (**FIT**) is fully committed to ensure you get the longest use and best performance from your equipment. Our annual packages are great value and any extra works that require parts or replacement units will be offered post inspection at reduced prices.

Operational Inspection – Caloo Play, Youth and Sport Equipment

Single **RPII** Qualified Operational Engineer Site visit to undertake operational inspection of Caloo equipment. Includes travel costs and labour. Engineer to provide written report post installation for any works required.

Specific works include -

- Inspect installed units for operational performance.
- Written report confirming condition of units.

Operational Inspection & Maintenance – Caloo Outdoor Gym Equipment

Single **RPII** Qualified Operational Engineer Site visit to undertake operational inspection and service of Caloo Outdoor Gym equipment. Includes travel costs, tools, parts and labour. Works up to 4 hours on site included.

Specific works include -

- Inspect installed units for operational performance.
- Undertake preventative maintenance as required and possible within 4 hour visit - includes minor repairs that do not require disassembly of equipment, replacing any missing grips and worn bearings as time allows.
- Undertake minor paint repairs to units as time or weather allows (please note colour match cannot be guaranteed).
- Written report post installation confirming works undertaken and any works outstanding.

Street Workout

The latest range of fitness equipment is designed to increase body strength, fitness and flexibility through movement. The new units can be used to pull, push, bend, flex and swing using only the user's body weight as resistance. This can provide long term benefits to muscle toning, balance and agility, perfect for individuals or groups to train.

Calisthenics equipment is a perfect choice for community parks, schools, military bases and any open space where users can benefit from outdoor fitness opportunities.

With hundreds of exercise possibilities from just one unit we can talk you through the workout options. From Vertical Ladders, High bars and Parallel bars, there is something everyone will be familiar with.

All units conform to EN16630:2015

Table Tennis Tables

Outdoor Table Tennis Tables

The quality, durability and design of our outdoor table tennis tables are second to none in the UK today, which is why schools, businesses, holiday parks and local councils choose Caloo for their open-air sports and fitness equipment. The rounded corners on all our models comply with health and safety standards across the world, their anti-glare surfaces ensure that play is never hampered by good weather, and you have a great choice of designs, materials and net types to select from. For even more flexibility our outdoor table tennis tables can be bolted to the ground or used as freestanding sports equipment to suit almost any environment.

Maintenance-free and easy to install, the table can be used by people with reduced mobility, is NF-EN 15312 standard-compliant and GS-certified by TUV Sud laboratory.

The Diabolo is a simple, classic outdoor table tennis table featuring:

- Realistic Ball Bounce
- Standard triangular net
- 60mm thick table top
- Can withstand loads of over 1000kg per side
- Vandal resistant - will not corrode, rot or crack
- Resistant to environmental aggressions
- Simple to assemble
- Can be freestanding or bolted down
- Legs can be filled with ballast to reduce noise
- We recommend each table has a 4.6m x 6.8m total space.

Table Top:

Constructed from Resitec HD - A robust composite with an anti glare finish that will not rust, crack or rot. This heavy duty material will perform for years without maintenance. Supplied with rounded corners as standard.

Support Frame:

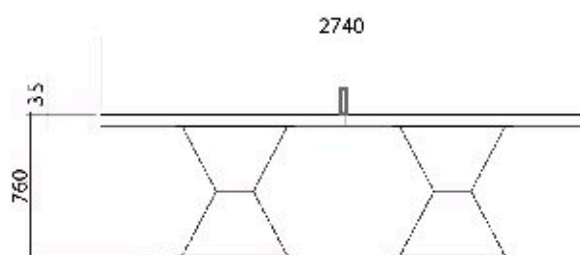

3mm thick polyester bases that can be filled with ballast. 8 point ground bolting.

Colour:

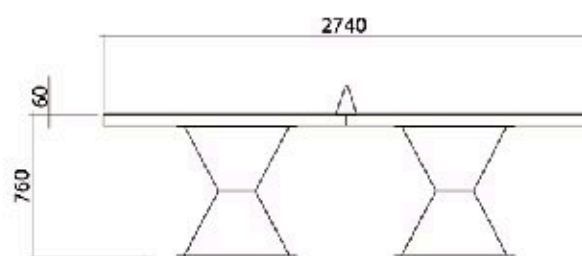

Supplied as blue and green as standard. Other colour options available at additional costs.

Slim Diabolo Table

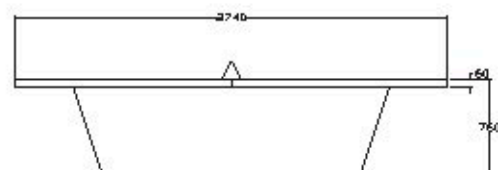

Diabolo Table

Square Table

The same fantastic qualities of the Diabolo but with one centre piece mount to reduce the risk of children from crawling underneath the table.

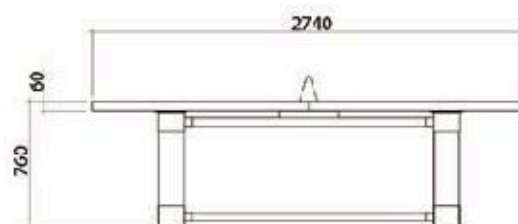

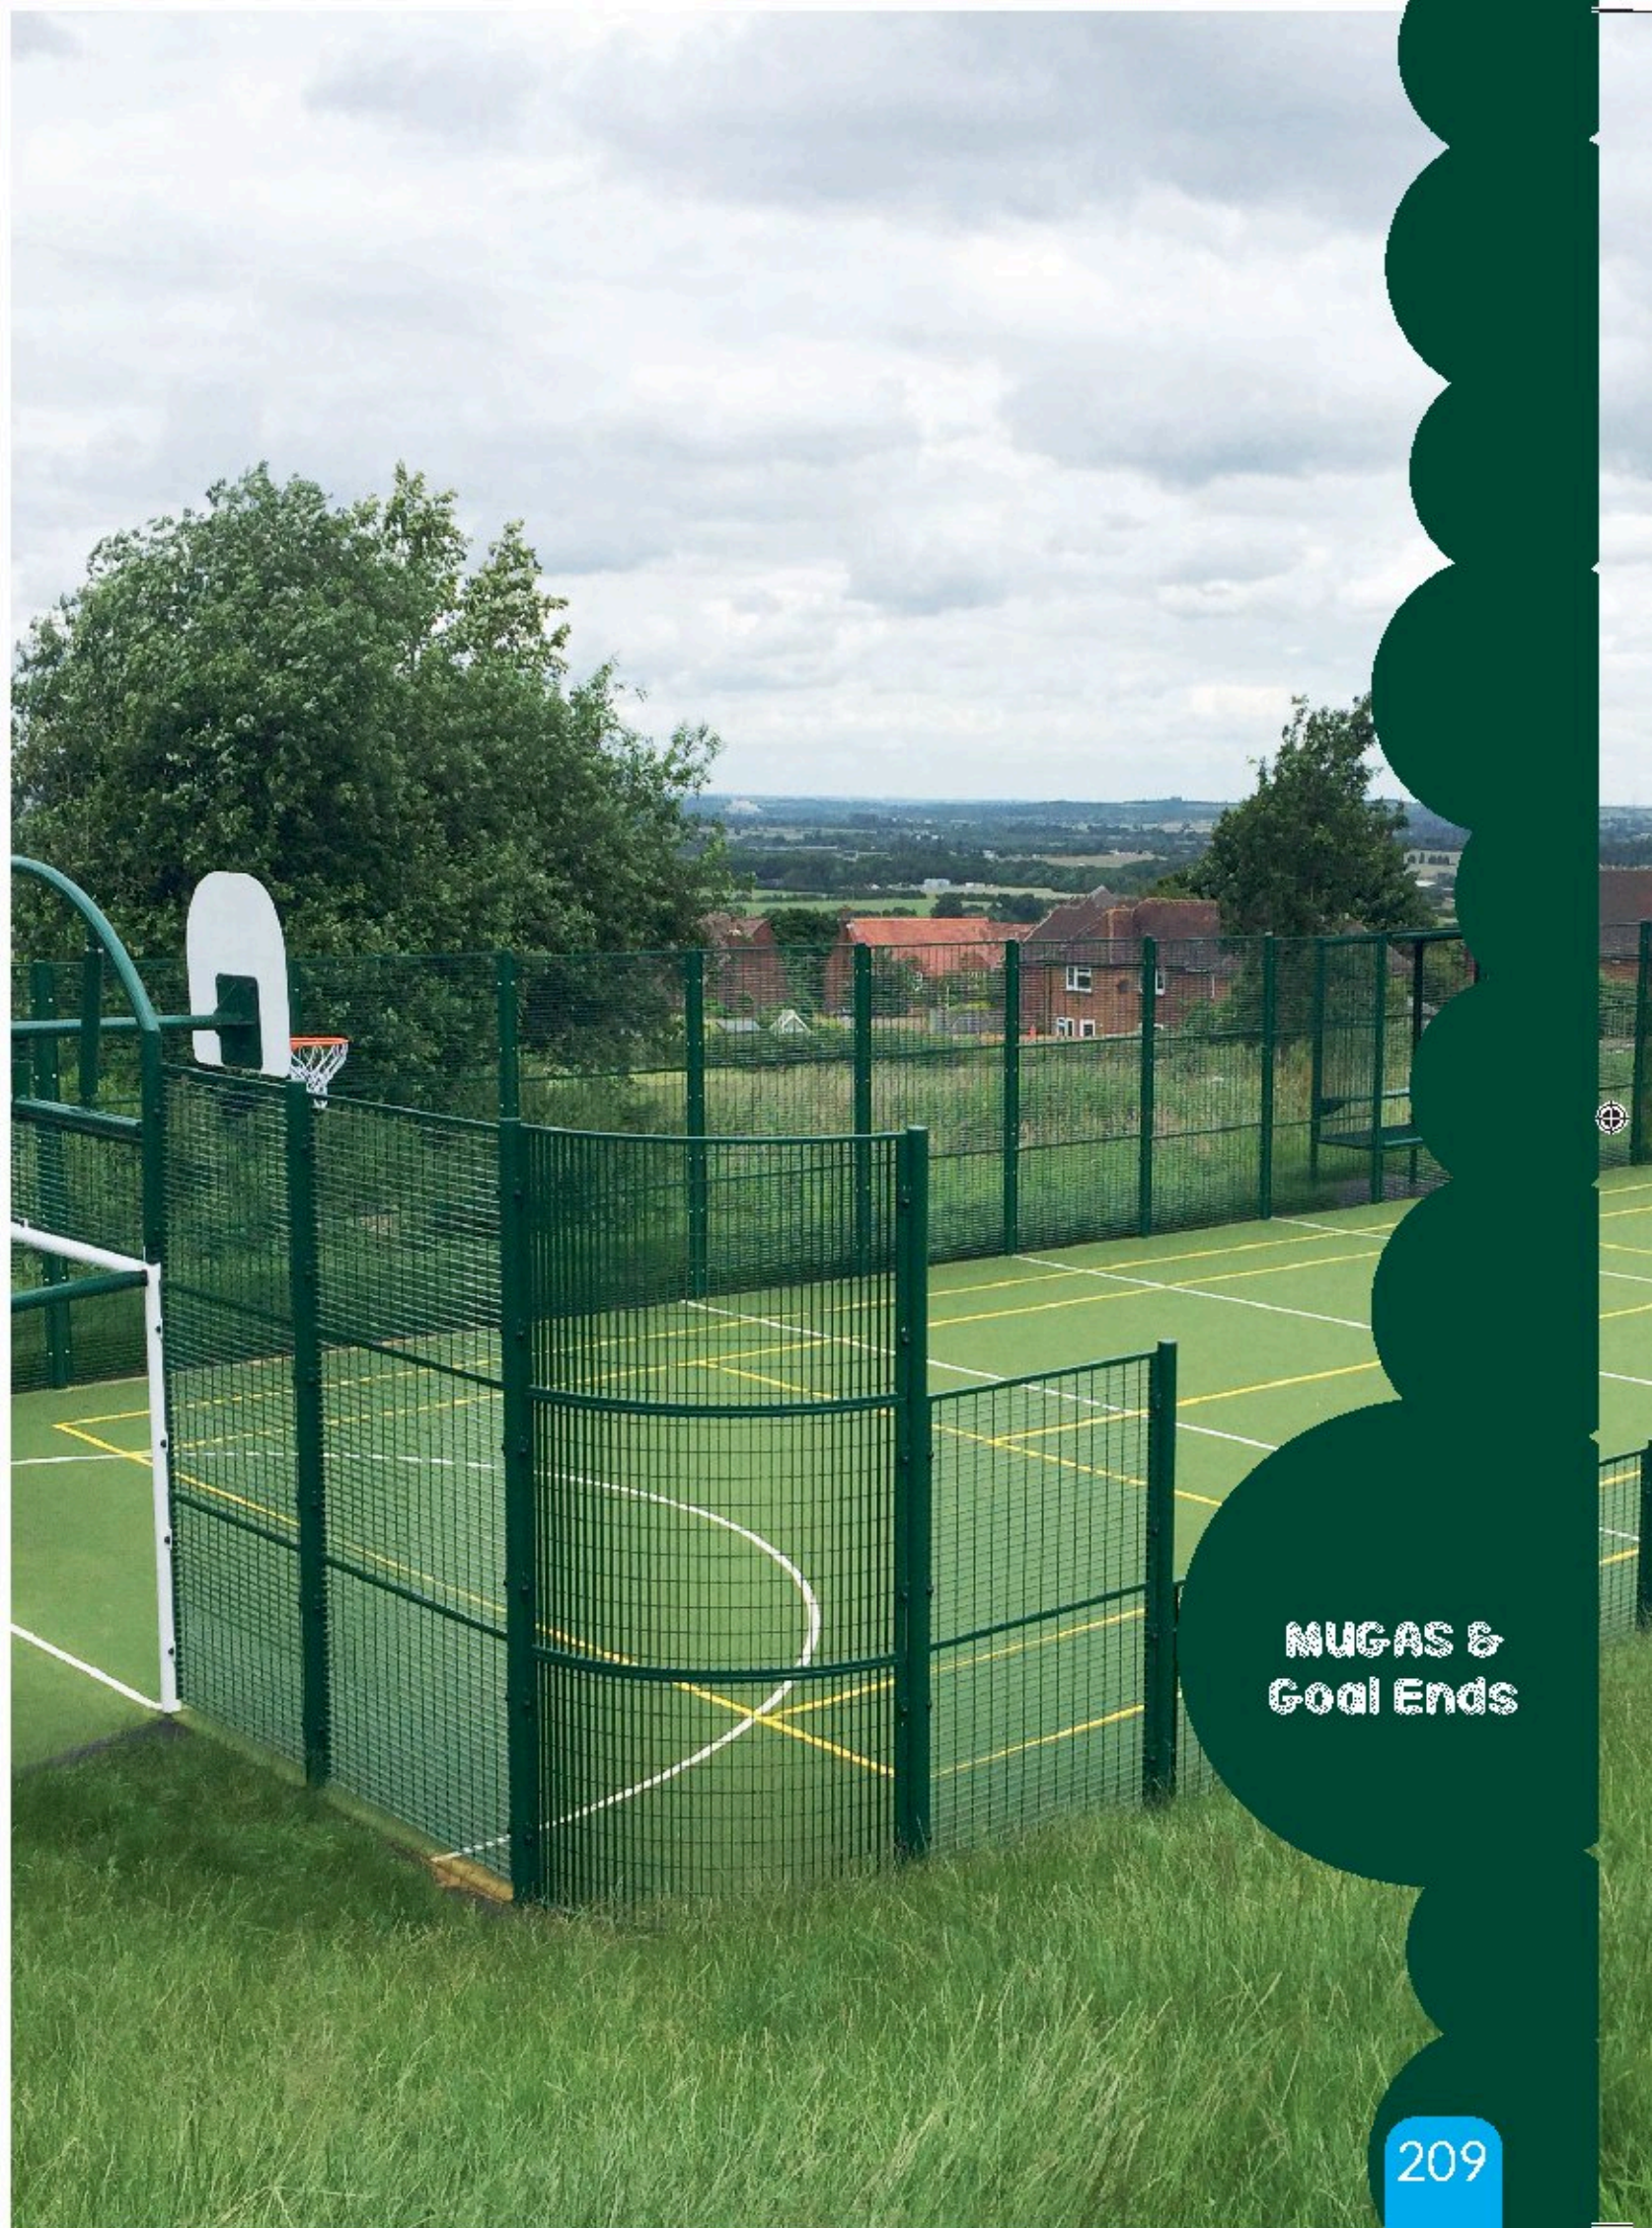

Natura Table

- Natura is an outdoor table tennis table designed with a timber frame that blends into the natural environment.
- Realistic ball bounce, performs like an indoor tournament table
- Triangular net helps to return the ball to player
- Very robust - can withstand loads of over 1600kg per side
- Will not crack, corrode or rot
- Vandal resistant
- Resistant to environmental aggressions such as UV, frost, salt spray
- Simple to assemble
- Can be left as freestanding or bolted down (Ground fixings not supplied)
- Natura is TUV-approved and features competition rebound.
- We recommend each table has a 4.6m x 6.8m total space.

Table Top:

Constructed from Resitec HD - A robust composite with an anti glare finish that will not rust, crack or rot. This heavy duty material will perform for years without maintenance. Supplied with rounded corners as standard. Support Frame: Natural, Class III, exotic, rotproof wood assembled by screws in hot galvanised steel feet and supports, 4 point ground bolting.

**MUGAS &
Goal Ends**

MUGAS

MUGAs or Multi Use Games Areas, are a perfect addition to any Community, School, University, College or Leisure Space. To encourage fitness and keeping fit these contained units offer goal ends for football, basketball or netball play and can even have cricket wickets added in for additional sporting fun! Below are a range of our standard configurations and sizes. All our MUGAs comply with BS EN 15312.

Sports Surfaces

We are able to provide and lay a comprehensive range of sports surfaces which can be designed for general multi use sports or sport specific if required. With experience of surfaces including polymeric, synthetic grass (rubber or sand solutions) or durable tarmac which can be coated in a range of colourful markings available, we have a solution to every site or budget requirement.

Fencing Options Explained

CHAMPIONSHIP FENCING

A combination of steel rebound fence specifications offering good ball rebound and fence strength by featuring 8mm twin horizontal and 6mm vertical bars with 50mm x 60mm aperture to 1.2m lower section (1m for 1m high) and 50mm x 200mm aperture to remainder of full height. Galvanised and Powder Coated available in your choice of colour. Rectangular fence posts and flush panel fixing for excellent ball rebound. Goals and gates to match fencing.

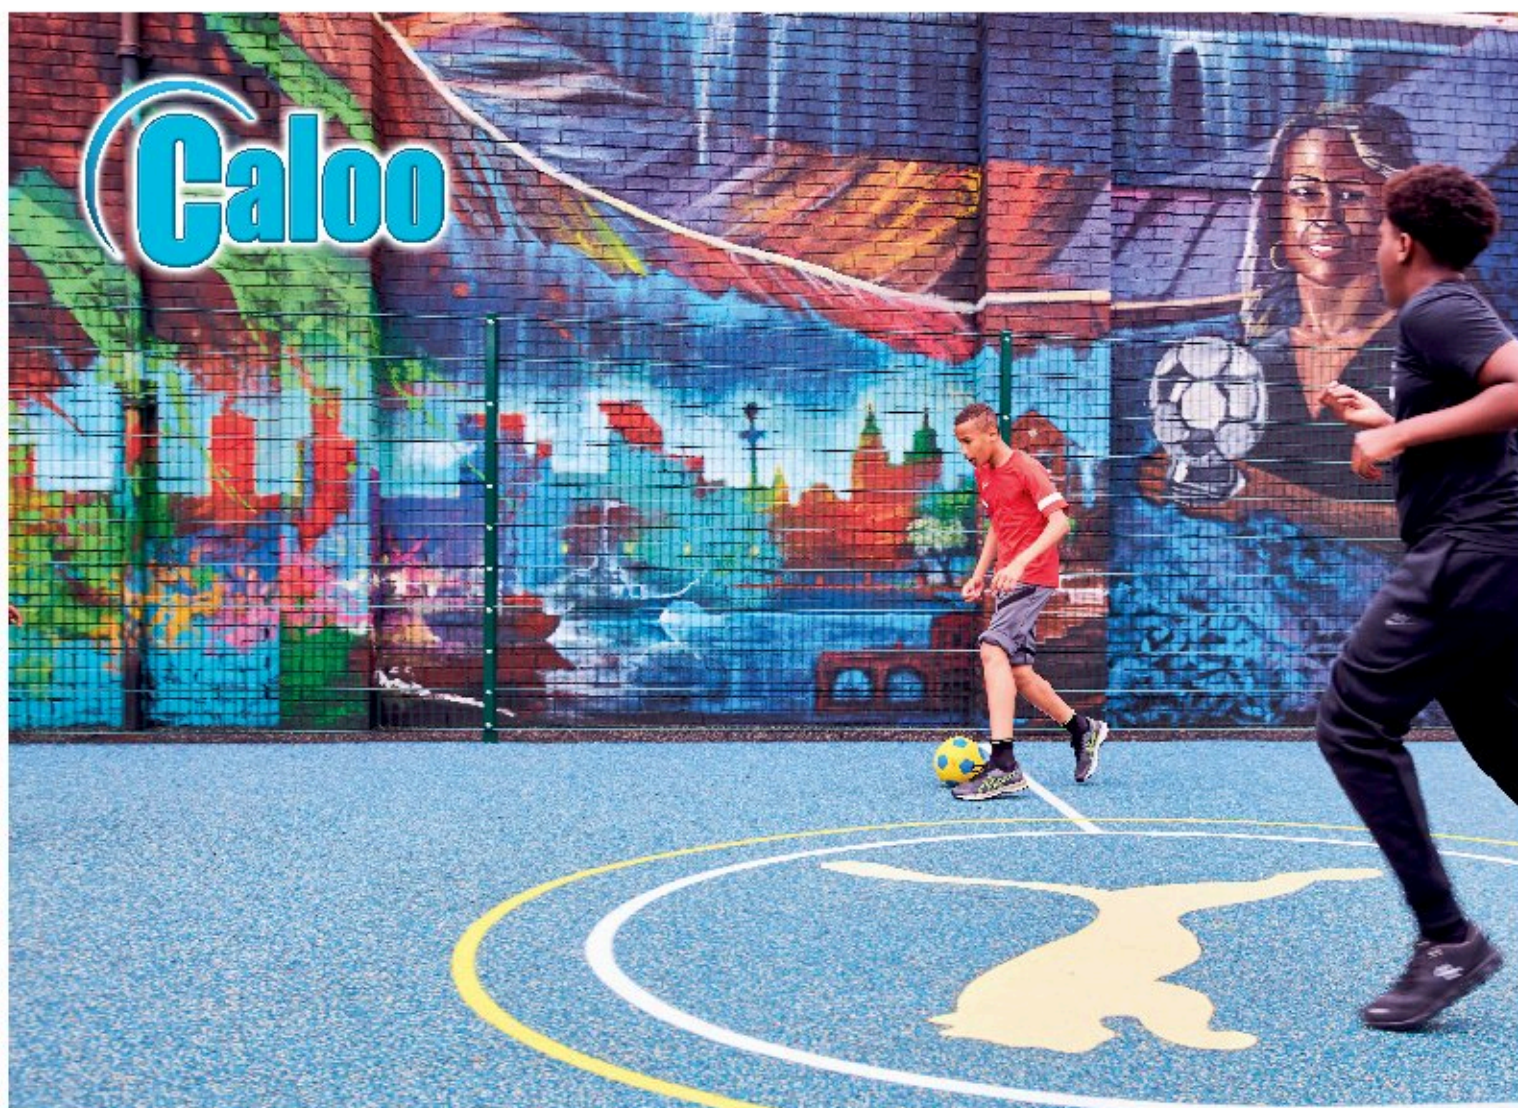

Championship MUGA

Championship MUGAs are available in the same sizes and configurations as shown for Premiership MUGAs. Championship MUGAs are made from part Championship Fencing and part League Fencing for added strength.

Championship MUGAs can be supplied in any width and heights up to 4 metres. All Championship MUGAs are priced individually, contact our Sales Office for your bespoke quotation.

Championship MUGAs are supplied with closed square back goals as standard.

Princes Park Multi Use Games Area

This exciting project was sponsored by PUMA for a Multi Use Games Area for the local community. The client wanted the area to be rubber with SUDS bond overlay and to include the PUMA logo in the Centre.

Leicester City Council - Multi Use Games Area

The Client were looking for a multi-use games area for the Carisbrooke Special Learning Centre for students who are at risk from exclusion from mainstream education. The MUGA was to be 3m high panels, 28m x 15m in size with markings for football, basketball and tennis. A footpath was also installed along with a drainage system.

Aston Clinton

Aston Clinton multi use games area, featuring basketball nets, recessed football goals, surface markings, shot target panels, cricket practice panels, fencing and bright blue surfacing.

League MUGA

League MUGAs are available in the same sizes and configurations as shown for Premiership MUGAs. League MUGAs are perfect for smaller budgets or locations where ball rebound will be lighter.

League MUGAs can be supplied in any width and heights up to 4 metres. All League MUGAs are priced individually, contact our Sales Office for your bespoke quotation.

League MUGAs are supplied with closed square back goals as standard.

Fencing Options Explained

LEAGUE FENCING

Our budget system. Perfect for areas where high intensity ball impact is not expected. League fencing features a lower specification of steel fencing by utilising twin 6mm horizontal and 5mm vertical bars with 50mm x 200mm aperture to full height. Galvanised and Powder Coated available in your choice of colour. Rectangular fence posts and flush panel fixing for excellent ball rebound. Goals and gates to match fencing.

Flood Lights (Range of heights and bulbs available) - Custom

The Site:
Princes Park Multi Use Games Area

The Brief:
This exciting project was sponsored by PUMA for a Multi Use Games Area for the local community. The client wanted the area to be rubber with SUDS bond overlay and to include the PUMA logo in the centre.

The Budget: £41,000.00 + VAT

Equipment Installed:

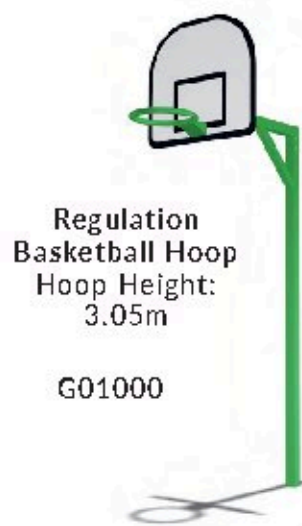

- Championship Fencing
- SUDS Bond Surfacing

The Challenges:
Before the installation took place the client had to ensure that the existing tree roots were removed, the tarmac was repaired and weed killer was sprayed over the area twice. We had to wait for these to be completed before we started the installation.

Outcome:
The new MUGA at Princes Park has attracted lots of positive press with an opening of the MUGA by Nikita Paris of the women's England Team. This also featured on Match of the Day X.

Basketball Nets, Goals and Goal Ends

Our Goal Ends can be installed alone or as part of a multi use games area (MUGA). These range from simple single football or basketball goal ends to large goal units with side panels. With open, closed, and flush goals there is something for every space and they are even offered in a range of exciting colours!

**Regulation
Basketball Hoop**
Hoop Height:
3.05m

G02005

Our frames are powder coated which offers a guaranteed consistent thickness and a uniform matt finish. It also improves the frames scratch resistance, and is available in a multitude of colours, perfect for any number of MUGA combinations.

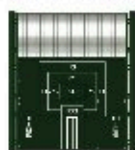

Multi Active Games Areas

Multi Active Games Areas

The Multi Active Games Area range is a durable, flexible, modular sports system. It motivates children of all abilities to develop a healthy sense of competition, build confidence and have lots of fun through learning new skills! The Multi Active range is very flexible, we can make your sports system tailor-made to suit you; including the panels and game ideas you want to feature in your area.

The range has been designed for Key Stages 1 and 2, with easily understood multiple games that offer structured learning in P.E. and creative playtime experiences. All our Multi Active Games Areas comply with BS EN 15312.

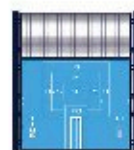

Panels are available in the following colours:

Green and White

Red and Yellow

Blue and White

Multi Active Game Cards great for developing Lesson Plans.

MARKINGS

PREFORMED PLASTICS

Our preformed plastic is the best on the market and provides many advantages over traditional painted or hot applied systems. All of our designs are precision water jet cut allowing us to create extremely intricate designs. The plastic markings that we install can be fitted to most surfaces including concrete and tarmac.

- ✓ Colourful with high UV resistance - The colours stay bright and shiny for a long time
- ✓ Available in 18 colours, which makes it easier to design decorative and inspiring games
- ✓ Non Toxic
- ✓ Environmentally Friendly
- ✓ Contains no lead or chromates
- ✓ Colour Guaranteed
- ✓ Provides a safe anti slip finish
- ✓ Flexible and durable - Smaller details and curving shapes are possible
- ✓ Lasts 10 times longer than paint

FUN & GAMES

Just like in the classroom we understand that sometimes it's important for learning to be fun. By integrating fun into a child's educational journey, the development of softer skills alongside the improvement of more academic abilities makes for a well-rounded learning experience. Check out our range of fun playground games.

Skate
Parks

Skate Parks

Skateboarding was once considered a specialist hobby for a small group of people, but is now one of the largest and fastest-growing pastimes for children, youths and adults. Introducing a skate park into a community can transform a small, unused space into something that will be hugely popular, and will draw skateboarders, **BMX** riders and in-line skaters to the area.

The Caloo skate range is manufactured from heavy duty galvanised steel which is internally clad with plywood to help absorb wheel noise. The riding surface is coated with a specialist protective paint - Gravitex to help deaden sound and is a tough, hard, durable coating used in the automotive industry to protect against stone chips, salt, damp and rust. This provides a great skate surface, is super tough and vandal resistant.

Please note - All prices shown are for the equipment manufacture element only. Additional delivery, installation and site surface costs will need to be calculated based on existing site location and conditions.

All Caloo Skate products are designed and manufactured to **BS EN 14974:2006+A1:2010**

Skate - 01

Dimensions: 11 x 23m

Featuring :

- Flatbank SB-006,
- Funbox SB-009,
- Handbox Rail SB-031,
- Quarter Pipe SB-001,
- Spine Ramp SB-005,
- Grind Box SB-030A
- Grind Rail SB-004.

Manufactured from heavy duty steel angle frame with 6mm thick solid steel skating surface and SkateActive textured surface coating for for grip and noise reduction.

Handrails, grind-rails and kickers all galvanised steel with side cladding (as required) manufactured from galvanised steel sheet clad internally with marine grade ply to aid noise absorption.

BS EN14974 compliant.

Skate - 02

Dimensions: 18 x 27.4m

Featuring:

- Flatbank SB-006,
- Roll in Ramp SB-026,
- Funbox SB-009,
- Handbox Rail SB-031,
- 2 x Quarter Pipe SB-001,
- Spine Ramp SB-005,
- Roller Ramp SB-029,
- Drop Grind Rail SB-004A
- Grind Rail SB-004.

Manufactured from heavy duty steel angle frame with 6mm thick solid steel skating surface and SkateActive textured surface coating for for grip and noise reduction.

Handrails, grind-rails and kickers all galvanised steel with side cladding (as required) manufactured from galvanised steel sheet clad internally with marine grade ply to aid noise absorption.

BS EN14974 compliant.

Skate Park Bundles

Skate - 03

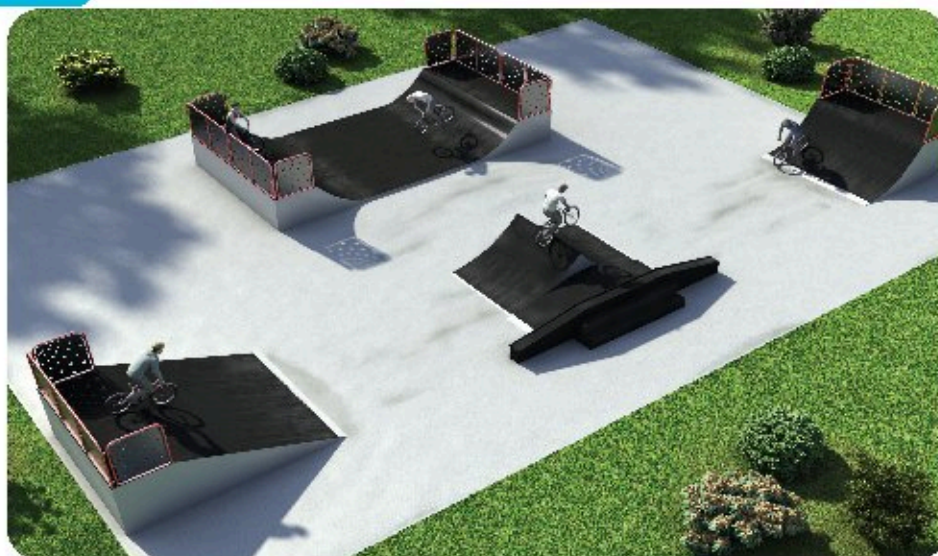

Dimensions: 18 x 25m

Featuring:

- Half Pipe SB-002,
- Flatbank SB-006,
- Funbox SB-009,
- Handbox Rail SB-031,
- Quarter Pipe SB-001,
- Spine Ramp SB-005
- Step Grind Double SB-030.

Manufactured from heavy duty steel angle frame with 6mm thick solid steel skating surface and SkateActive textured surface coating for grip and noise reduction. Handrails, grind-rails and kickers all galvanised steel with side cladding (as required) manufactured from galvanised steel sheet clad internally with marine grade ply to aid noise absorption.

BS EN14974 compliant.

Skate - 04

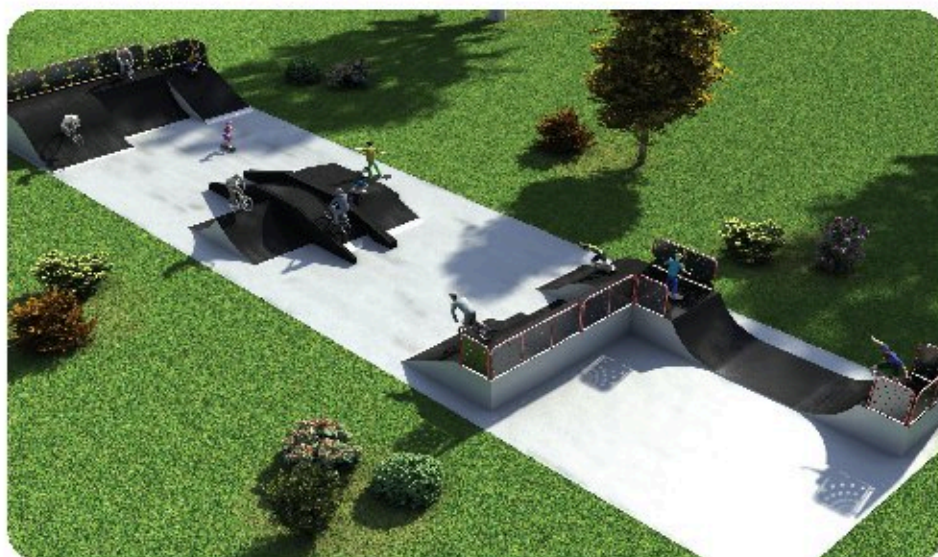

Dimensions: 10 x 38m

Featuring:

- Half Pipe SB-002,
- 2 x Roll in Ramp SB-026,
- 2 x Quarter Pipe SB-001,
- 2 x Flatbank SB-006,
- Funbox SB-009,
- Handbox Rail SB-031,
- Spine Ramp SB-005,
- Roller Ramp SB-029,
- Grindrail Box SB-032,
- Kicker Ramp SB-027.

Manufactured from heavy duty steel angle frame with 6mm thick solid steel skating surface and SkateActive textured surface coating for grip and noise reduction. Handrails, grind-rails and kickers all galvanised steel with side cladding (as required) manufactured from galvanised steel sheet clad internally with marine grade ply to aid noise absorption.

BS EN14974 compliant.

**Community
Seating**

Community Seating

The fantastic community seating selection comes in a range of shapes and sizes to suit your outdoor space, made from 89% Recycled Steel. Super tough build quality. Hot dip galvanized for long life and transparent Lexan back panels that have 250 times the impact strength of glass.

Hangout - YS107

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Hangout Shelter is a classic community shelter design. It is fantastic for any open space and can fit approximately 12 people.

In addition to the clear 'Lexan' panels shown here it can have solid steel sides, no sides at all, or a combination of all these and as for the colour, it's up to you.

Meet Up - YS111

Dimensions: (HxWxD) 2.5m x 4m x 5m

The MeetUp Shelter is big enough to take up to twenty people at a time. Seats approximately 24 people.

In addition to the clear 'Lexan' panels shown here it can have solid steel sides, no sides at all, or a combination of all these and as for the colour, it's up to you.

Youth Shelters

Open - YS101

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Open Shelter is an open based design. It is fantastic low cost option suitable for any open space and can fit approximately 12 people.

Space - YS106

Dimensions: (HxWxD) 2.5m x 4m x 3m

The Space Shelter is a great choice to offer slightly more seating than a standard shelter without taking up extra space. Seats approximately 16 people.

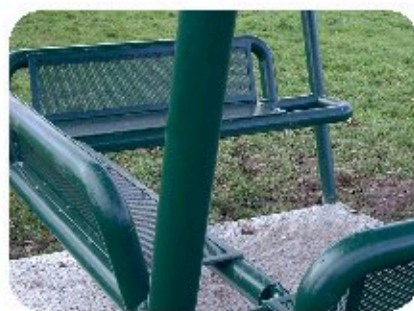

Rest - YS102

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Rest Shelter is an open sided shelter with back rests on the benches and can seat approximately 9 people.

Loft - YS103

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Loft Shelter is a simple community seating space with enclosed back and sides. It is fantastic for any open space and can fit approximately 12 people.

Spectator - YS109

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Spectator design is fully enclosed with Lexan Margard back and sides for total viewing access. Seats approximately 12 people.

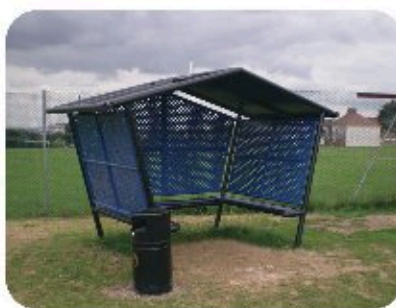

Youth Shelters

Base - YS104

Dimensions: (HxWxD) 2.5m x 4m x 5m

The Base Shelter is fully enclosed with perforated steel back and sides. It has seating for approximately 12 people.

Den - YS105

Dimensions: (HxWxD) 2.5m x 4m x 2.5m

The Den Shelter is fully enclosed with steel back and sides, it is fantastic for any open space and can fit approximately 12 people.

The King - YS112

Dimensions: (HxWxD) 2.5m x 6m x 4m

If you are looking for a large Shelter, this is the one for you! It can take a large amount of people and can even be used for an outdoor classroom. Seats approximately 36 people.
