Thermoplastic

Our preformed thermoplastic is the best on the market and provides many advantages over traditional painted or hot applied systems. All of our designs are precision water jet cut allowing us to create extremely intricate designs. The thermoplastic markings that we install can be fitted to most surfaces including concrete and tarmac.

- ✓ Colourful with high UV resistance - The colours stay bright and shiny for a long time
- ✓ Available in 18 colours, which makes it easier to design decorative and inspiring games
- ✓ Non Toxic
- ✓ Environmentally Friendly
- ✓ Contains no lead or chromates
- ✓ Colour Guaranteed
- ✓ Provides a safe anti slip finish
- ✓ Flexible and durable - Smaller details and curving shapes are possible
- ✓ Lasts 10 times longer than paint

FUN GAMES

Just like in the classroom we understand that sometimes it's important for learning to be fun. By integrating fun into a child's educational journey, the development of softer skills alongside the improvement of more academic abilities makes for a well-rounded learning experience. Check out our range of fun thermoplastic playground games.

TARGETS

Hand-eye co-ordination is an important part of any child's development and isn't reserved purely for sport and competitive environments. Our target games are designed to improve these skills so that they can be applied in other areas. The bright and vibrant colours used in these targets increase children's enjoyment and engagement.

BUILD YOUR OWN TRAIL

We understand one size doesn't fit all. It's time to be creative and build your own trail. Choose your sections.

*Each section is 6m long, which includes 1m of line before and after the station except the sprint which is 8m long.
