Caloo Workout - CW62

Seatless Lat Pull/Chest Press

Designed & Manufactured to EN 16630

Suitable for users over 1400mm tall.

Area Needed:
3900mm x 4900mm

Safety Spacing

3900mm

4900mm

The Chest Press provides an upper body workout focusing on the chest and arms. The Lat Pull focuses on developing the shoulders and the triceps. This unit will develop and strengthen the muscles without the need for the user to leave their wheelchair. The arms of both the Chest Press and Lat Pull are fitted with dampeners for gentle resistance.

The Caloo workout Range features individual fitness stations which offer an environmentally friendly outdoor fitness facility. Each unit is designed to target a specific muscle group, creating a variety of activities which can create a full body workout or aid recuperation after accident or illness. Caloo Workout units are available in three attractive colour combinations : blue and silver, green and silver or red and yellow.
