

Pre Cast Concrete Edgings

SS4-07

Available with squared or rounded top these edges are widely used for a multitude of edging applications including raised for paths and sunken to ground level to retain wetpour.

Code	Area - approx
SS4-07A	20 m
SS4-07B	50 m
SS4-07C	100 m

Surfacing - Edging Detail

We offer a comprehensive range of impact absorbent and traditional playground surfaces. Our impact absorbent surfaces are certified to EN1177 and include rubber wet pour, grassmatting, bonded rubber shred and loose fill systems. We can undertake site preparation as required for these surfaces and our installation teams are experienced in the installation of traditional tarmac areas and can lay new or overlay existing.
