

Self-binding Gravel

SS8-04

Self-binding gravel has the dust left in. The result is that the fines and particles knit together and compact to form a surface that is less susceptible to scuffing. Widely used for Parks and Nature Trails.

Code	Area - approx
SS8-04A	20sq m
SS8-04B	50sq m
SS8-04C	100sq m

Surfacing - Pathways

We offer a comprehensive range of impact absorbent and traditional playground surfaces. Our impact absorbent surfaces are certified to EN1177 and include rubber wet pour, grassmatting, bonded rubber shred and loose fill systems. We can undertake site preparation as required for these surfaces and our installation teams are experienced in the installation of traditional tarmac areas and can lay new or overlay existing.
