General information on street workout:

Product type: fitness, stretching, exercise & workout. **Application:** Workout is a permanently installed and freely accessible fitness equipment intended for sporting activities and exercising to improve physical and mental skills and abilities of users. Users may use the equipment with or without supervision and help of others.

Instructions for use: In accordance with the applicable EU legislation, workout systems may be used by people over 14 years of age, with a minimum height of 140 cm and maximum weight of 120 kg. Other than intended use is strictly prohibited, unless otherwise determined by the manufacturer in accordance with the applicable standards and regulations. For more information see the General Instructions for Use and Product Information.

Safety instructions: While using the workout system, follow the instructions shown in the information boards on the equipment. Exercise slowly and in a controlled way. Physical issues may occur in case of excessive load. In case of any doubts, consult the training or individual exercises with your physician to make sure there are no obstructions preventing from safe use of the workout system. Avoid overload of individual parts of the system and do not use the system if the surface is covered by frost, slippery, hot or the equipment is visibly damaged.
