Minimal space

MATERIAL SPECIFICATION

The swing series - a wide range of swings that are most popular among children on playgrounds. Comfortable, safe seats for both children from 3 years old and older children embedded in a durable construction will serve them for many years. Swing swings teach the kids to keep their balance, calm them down, and most importantly make them happy.

- steel structure with 80x80 mm profile, galvanized and / or powder coated;
- lack of sharp edges and crevices that could allow pinching: fingers, head and other parts of the body;
- all screws, screws covered with plastic colored caps;
- secure end caps made of durable material at the top of the structure;
- stainless steel slings;
- calibrated chain preventing pinching of fingers;
- durable certified seat;

ADDITIONAL REMARKS
