Minimal space

MATERIAL SPECIFICATION

Solo series – individual devices that are a necessary addition to the main amenities of the playground. Games, didactic accessories, sandpits, little houses, wagons – elements that are incredibly appealing to children and are an unlimited source of fun, while at the same time inspire children's critical thinking and develop their motor and sensory as well as emotional and cognitive skills. Carefully chosen patterns, colors and details gain the approval of even the most demanding children.

- Stainless steel construction;
- Stainless steel screws or screws covered with colorful plastic caps;

ADDITIONAL COMMENTS

- The device is designed for public playground

Due to the free fall height of the device, the EN 1176-1:2008 standard allows the following surfaces to cushion a fall. The level of granular materials requires filling in, conservation of synthetic materials is required in accordance with the manufacturer's instructions. Dimensions of the foundation are described in installation instruction.
