

Specification	
Safety zone	15,95 m ²
Length	2,18 m
Width	0,67 m
Overall height	2,05 m
The amount of free fall	1,20 m
Age range	3-14 lat
Complies with EN standard	1176-1:2017-12
Mass of the heaviest part [kg]	30
Dimension of the largest part [cm]	205x52x15
Availability of spare parts	Tak

MATERIAL SPECIFICATION

- construction of galvanized steel and / or powder coated;
- casings made of HDPE polythene plates resistant to weather conditions;
- a platform made of HPL board or waterproof anti-slip plate;
- no sharp edges or crevices that could allow pinching of: fingers, head and other parts of the body;
- stainless steel slide;
- all screws, screws covered with plastic colored caps;
- rubber safety plugs at the top of the structure;

Additional remarks

- the device has a certificate issued by an accredited body or a declaration of conformity;
- anchoring on flat ground at a depth of 80/70/60 cm;
