Championship Fencing

CHAMP

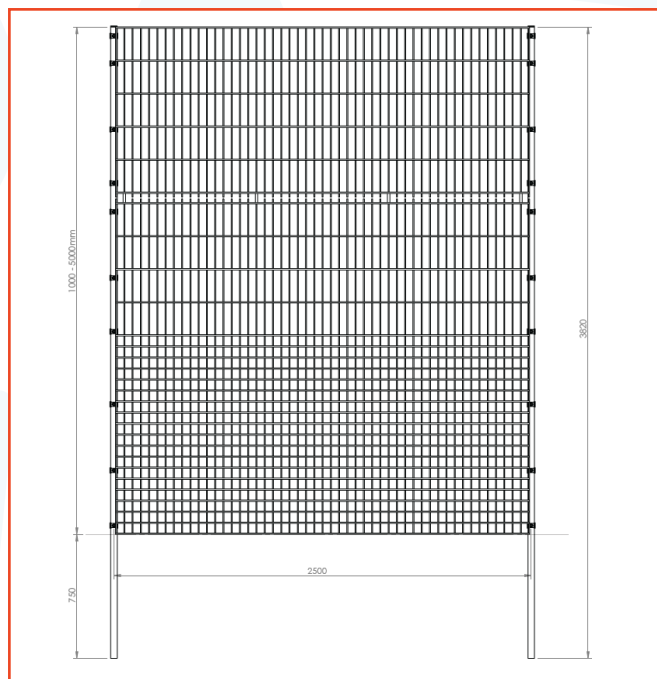

A steel rebound fence system built for ball courts, combining 8mm horizontal and 6mm vertical bars with a tighter aperture lower rebound section for excellent ball rebound and durability. Galvanised and powder coated in RAL 6005 Green or RAL 9005 Black, with posts and centres sized to the fence height. Available from 1m up to 5m high, suiting anything from a small practice wall to a full-height ball court enclosure.

Matching goals, gates and a basketball hoop are all available as optional extras on request.

Conforms to EN15312:2007

Technical Information

Option Available

CHAMP-1000 – Championship Fencing – 1.03m High, 60mm x 60mm posts, fitted safety channel top rail

CHAMP-2000 – Championship Fencing – 2.03m High, 60mm x 40mm posts

CHAMP-3000 – Championship Fencing – 3.02m High, 80mm x 40mm posts

CHAMP-4000 – Championship Fencing – 4.08m High, 100mm x 50mm posts

Materials

Posts and rebound panels are galvanised and finished with an electrostatic powder coat application of lead-free paint in RAL 6005 Green or RAL 9005 Black, giving a durable, corrosion-resistant finish built for high-use outdoor sites.
