Small Sleeper Sandpit

EYA-004

A compact, heavy-duty timber sandpit made from solid sleepers, ideal for smaller outdoor spaces and early years settings.

This sleeper sandpit is constructed from 195 x 95mm timber and includes a Garuda base for added stability and drainage. It features removable HDPE lid panels, with bespoke colours and optional engraving available on request to suit your space (engraving at extra cost).

The unit measures 1813mm in length, 1305mm in width, and 409mm in height, with a full sandbox depth of 409mm.

Sand not included
(Sand required = 0.59m³)

Technical Information

Materials

Pressure-treated UK pine sleepers are a highly durable and versatile material designed for exterior use, especially in demanding, ground-contact applications.

They are engineered through a specific industrial process to provide long-term resistance to biological degradation that would quickly destroy untreated timber.

Manufactured from high-grade waste which rescues countless tons of scrap from ending up in landfill. Renowned for its exceptional durability, our HDPE is virtually unbreakable, engineered to withstand the most challenging conditions. Moreover, it boasts excellent UV stability.

Surfacing

Surface Measurements

Grass Matting N/A

Grass Matting (Wear Area) N/A

Wetpour N/A

No safety surface required as critical fall height is less than 600mm. However, we suggest allowing an appropriate free space around the item in compliance with BS EN1176.
