Sand Play Table

EYA-007

An elevated sand table with an engraved HDPE lid, ideal for sensory play in schools and early years settings.

Constructed from durable timber, the unit is supplied free-standing as standard but can be adapted for in-ground fixing with extended timbers for an additional fee.

This unit measures 1020mm in length, 855mm in width, and 650mm in height, with a 195mm deep sandbox for group interaction and hands-on learning.

Sand not included
(Sand required = 0.08m³)

Technical Information

Materials

Pressure-treated UK pine sleepers are a highly durable and versatile material designed for exterior use, especially in demanding, ground-contact applications.

They are engineered through a specific industrial process to provide long-term resistance to biological degradation that would quickly destroy untreated timber.

Manufactured from high-grade waste which rescues countless tons of scrap from ending up in landfill. Renowned for its exceptional durability, our HDPE is virtually unbreakable, engineered to withstand the most challenging conditions. Moreover, it boasts excellent UV stability.

Surfacing

Surface Measurements

Grass Matting N/A

Grass Matting (Wear Area) N/A

Wetpour N/A

No safety surface required as critical fall height is less than 600mm. However, we suggest allowing an appropriate free space around the item in compliance with BS EN1176.
