# Sheltered Sandpit

EYA-008

A large timber sandpit with integrated roof and HDPE covers, offering shade and protection for all-weather play.

This unit features a shower-proof shiplap roof with pre-assembled roof panels, making installation straightforward. Sleeper sandpit sides provide a robust structure, and recycled core HDPE sand covers are available in a range of colour options. No base is included.

The unit measures 1940mm in length, 1880mm in width, and 2148mm in height, with a sandpit depth of 390mm for extended group use and creative exploration.

Sand not included  
(Sand required = 0.76m<sup>3</sup>)

## Technical Information

## Materials

Pressure-treated UK pine sleepers are a highly durable and versatile material designed for exterior use, especially in demanding, ground-contact applications.

They are engineered through a specific industrial process to provide long-term resistance to biological degradation that would quickly destroy untreated timber.

## Surfacing

## Surface Measurements

Grass Matting	N/A
Grass Matting (Wear Area)	N/A
Wetpour	N/A

No safety surface required as critical fall height is less than 600mm. However, we suggest allowing an appropriate free space around the item in compliance with BS EN1176.

Data is subject to change without prior notice.
