# Sand Workshop Table

EYA-009

An elevated sand table with a timber lid, designed for interactive play and learning in outdoor settings.

Constructed from timber with durable plastic handles, the unit is supplied free-standing as standard. Timbers can be extended for in-ground fixing at an additional cost.

This unit measures 1200mm in length, 825mm in width, and 750mm in height, with a 195mm deep sandbox suitable for group activities.

Sand not included  
(Sand required = 0.08m<sup>3</sup>)

## Technical Information

## Materials

Pressure-treated UK pine sleepers are a highly durable and versatile material designed for exterior use, especially in demanding, ground-contact applications.

They are engineered through a specific industrial process to provide long-term resistance to biological degradation that would quickly destroy untreated timber.

Manufactured from high-grade waste which rescues countless tons of scrap from ending up in landfill. Renowned for its exceptional durability, our HDPE is virtually unbreakable, engineered to withstand the most challenging conditions. Moreover, it boasts excellent UV stability.

## Surfacing

## Surface Measurements

Grass Matting	N/A
Grass Matting (Wear Area)	N/A
Wetpour	N/A

No safety surface required as critical fall height is less than 600mm. However, we suggest allowing an appropriate free space around the item in compliance with BS EN1176.
