## Play Café

EYA-020

A fun and imaginative role play unit designed to spark creativity and social interaction in outdoor settings.

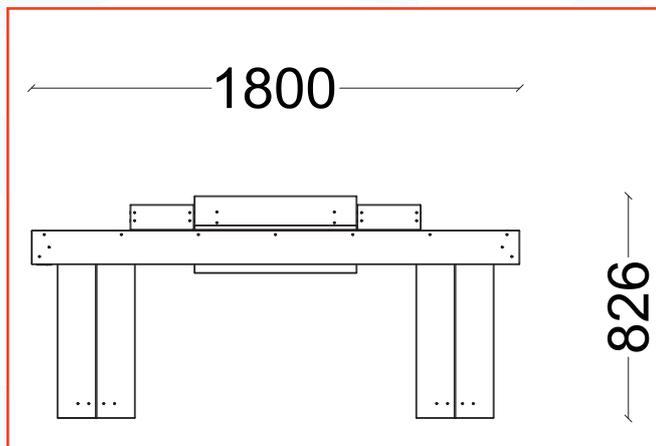

Constructed from durable timber with colourful HDPE panels, the Play Café includes two benches, timber shelves, and café-themed HDPE detailing. It can be installed free-standing or with in-ground fixings, and is designed to pair perfectly with our 1.2m or 1.8m Mud Kitchens (sold separately) to create a complete role play environment.

Bespoke HDPE colours and engraving are available on request.

This unit measures 1800mm in length, 826mm in width, and 1109mm in height.

### Technical Information

### Materials

Our timber play equipment is constructed from laminated Glulam timbers for all load-bearing and structural posts. Made from European Redwood heartwood, the laminates are bonded with moisture-resistant, durable, and structurally approved adhesive, with grains aligned for maximum strength. Sourced from FSC-approved, sustainably managed European forests, Glulam ensures both safety and environmental responsibility.

Manufactured from high-grade waste which rescues countless tons of scrap from ending up in landfill. Renowned for its exceptional durability, our HDPE is virtually unbreakable, engineered to withstand the most challenging conditions. Moreover, it boasts excellent UV stability.

Pressure-treated UK pine sleepers are a highly durable and versatile material designed for exterior use, especially in demanding, ground-contact applications.

They are engineered through a specific industrial process to provide long-term resistance to biological degradation that would quickly destroy untreated timber.

### Surfacing

### Surface Measurements

Grass Matting N/A

Grass Matting (Wear Area) N/A

Wetpour N/A

No safety surface required as critical fall height is less than 600mm. However, we suggest allowing an appropriate free space around the item in compliance with BS EN1176.
