The Vision

Hazlemere Parish Council wanted a modern, welcoming play space for ages 2 to 12 that kept the natural character of the site, especially its mature central tree, while bringing safer, more varied play equipment to the growing community.

"...chosen for its expertise and quality. Caloo delivered an inclusive play space that reflects the parish's vision, combining thoughtful design, durable materials, and lasting value for the community."

Hazlemere Parish Council

The Solution

A Quali-Cité Osmoz Junior 4 multiplay unit, Vinci wheelchair roundabout and swings, a caterpillar bridge, sensory and balance equipment, and Quali-Cité springers, all set on new wet pour and mulch bond surfacing.

The Impact

The refurbishment gives the community a modern, engaging play space with far more variety, safer surfacing and easier upkeep, while keeping the site's character around its mature tree.
