Multi-Active Cricket Wall

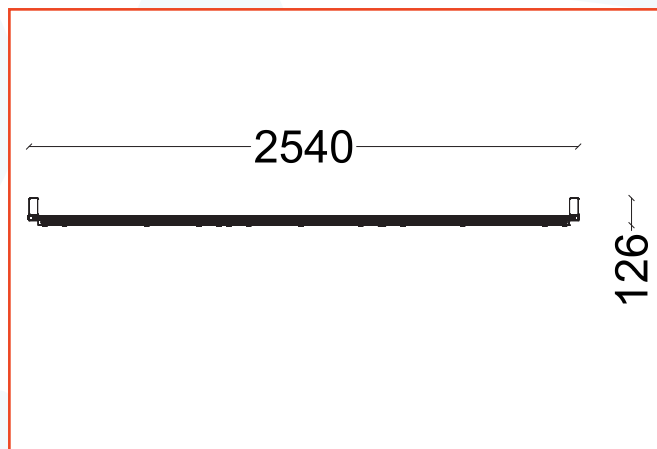

MA-013 (3m) / 15 (2m)

The Cricket Wall is the centrepiece of any playground cricket set-up. Its durable target wall gives children of all abilities a safe surface to bowl and bat against, building hand-eye and foot-eye coordination while supporting general fitness. Approachable for beginners yet engaging for confident young cricketers, it works with a standard Kwik cricket stump and pairs easily with our optional scoring markings. Available in 3m and 2m heights, tough and vandal resistant.

Pairs well with MA-904 Markings
(optional extra with an additional cost)

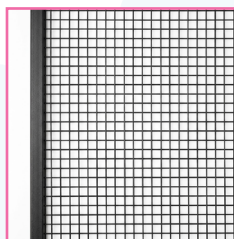

Technical Information

Materials

The wall's playing surface is made from durable HDPE (high-density polyethylene) panels, chosen for their weather resistance, impact strength and resistance to fading, cracking and vandalism.

Zinc primed and powder coated steel forms the Cricket Wall's frame and support posts, giving it a corrosion-resistant finish built to withstand years of outdoor use.
