The Vision

Wroot Parish Council wanted a brand new play area that worked for everyone in the community, from toddlers to older children and wheelchair users. The old equipment had reached the end of its life, so Caloo planned a full replacement. Caloo offered a free design service and worked through the options with the council until they found the right fit. The new design included a multiplay centrepiece unit, springer play for younger children, inclusive equipment for wheelchair users, and durable surfacing for everyday village use.

The Solution

Caloo cleared the old equipment and installed a Quali-Cite Osmoz Multiplay Tower Unit as the centrepiece, with a Flower Duo Springer for younger children. Caloo fitted a Wheelchair Roundabout and a mixed swing set for inclusive play, an Emotions Communication Panel, a Rain Wheel, a Timber Linked Trail and a wooden bench, then resurfaced the whole area in Mulchbond, a bonded rubber mulch surfacing that resists daily wear.

The Impact

The whole community can now use the new area, which has become a modern and inclusive space for every age group. The wheelchair roundabout and mixed swing set mean disabled children play alongside everyone else, and children build strength, balance and confidence across the new equipment. Mulchbond surfacing that resists wear keeps the whole site usable for years of daily use. Wroot Parish Council marked the finished play area with a community opening on Friday 16 October 2026, visibly proud of what the village now has.

Key Considerations

The brief called for play across a wide age range, with full wheelchair access throughout the site. The wheelchair roundabout, mixed swing set and edge-to-edge Mulchbond surfacing mean wheelchair users can reach and use every part of the play area.

Why Caloo?

- 10,000+ UK projects delivered since 2007, RoSPA, API, CHAS and Construction Line accredited
- Specialist experience with inclusive and SEND play equipment, including wheelchair-accessible kit

Installed Equipment:

OS 15-3003
Summit Climber Play Tower

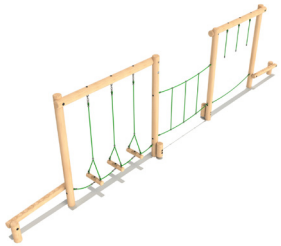

RE 290
Flower Duo Springer

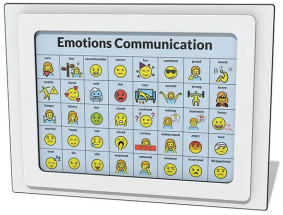

PO 755
Two Bay Basket and Two Seat Swing

0726
Wheelchair Roundabout for 2 users

NFT-001
Linked Timber Trail 1

FPP-123
Emotions Communication Panel

EC-M834
Rain Wheel

SF-104
1.8m Wooden Bench

Surfacing:

Mulchbond

Completed:

16/10/2026

Items Installed:

9
